

Bhagawat Geeta, Class 106: Chapter 7, Verses 16 to 19

Shloka # 16:

00000000 000000 000 0000 0000000000000000
 00000 00000000000000000000 000000 0 000000000**7.16**00

Arjuna! Men of righteous acts are four fold. They resort to Me, O best of Bharatas! They are afflicted,

The knowledge seeker, wealth seeker and the knower.

Continuing his teaching of the Gita, Swami Paramarthananda said, after dealing with Ishwaraswarupam, consisting of Para Parkriti (PP) and Apra Prakriti (AP), Sri Krishna then pointed out about our human problem in shloka # 13. The cause of the human problem is seeking security from the insecure objects of the world; seeking permanence from the impermanent objects of the world; seeking fulfillment

from the finite objects of the world; seeking happiness from the sorrowful or sorrow-giving objects of the world; this misplaced seeking is the cause of misery. Our expectations are the wrong ones hence they are not fulfilled, leading to sorrow and depression. Apara Parkriti cannot give us permanent security; Para Parkriti alone can provide us with this.

Now from shlokas # 14 through # 19, Sri Krishna is discussing solutions or Samsara Nivrithi karanam; and Ishwara Sharanagathi or Ishwara Bhakti is presented as the solution.

Now what is Bhakti? This topic is now elaborated upon. Various stages of Bhakti are also discussed. Many people don't turn to Bhakti, as they do not have the punya from past births. A few do obtain the punya of past births and turn to God. Many of them do so without knowing the true nature of God. For such

people scriptures temporarily present various forms of God for our worship; just as in Mathematics until we find an answer to a problem, we use X. X only represents the unknown solution and using it you start to find out what X is. Similarly, we have got personal Gods or formed Gods or Ishta devata, which are like the unknown X of mathematics. Until I know what exactly is the unknown God, I hold on to that Ishvara.

Shloka # 16 discussed in last class the four types of bhaktas who surrender to God. They are:

Artaha Bhakta: Bhaktas who think of God, only at times of crisis. Such a bhakti requires a problem to arise for one to worship God and is known as dukha nivrittyartham bhakti. Most people start their bhakti from this stage.

Because of this bhakti, now, there is the idea that religion is only for weak people. In times of problems one does look to god for help. Many people, however, consider religion is only for weaker people. This misconception exists. Generally we go to the Lord when we have a crisis. If we are not confident enough of solving it we go to some temple or some Swami for help.

1. Artha-arthi Bhakta: He uses god for fulfilling his worldly ends.
2. Jignasu Bhakta: He considers God himself as his end.
3. Gyani Bhakta: For him God is "I" myself. Here the seeker is one with sought. Sri Krishna has presented these four types of Bhaktas. They can also be considered as four stages of Bhakti in a person.

I start as artha or artharthi bhakta and once I use it for my material gains, I mature. I understand the material world cannot give me security. I continue to be a bhakti; however, I now become a nishkama bhakta instead of remaining a sakama bhakta. The jignasu is one such bhakta. For him, he knows god alone can give him security. God can be accomplished only in

terms of

Gyanam; accomplishing God is not a physical event; it is not a travel in time; accomplishment of God is in terms of knowledge; because, if God is all pervading and I don't have to travel to reach him; why should I travel to reach an omniscient god? I have to discover God here and now. Ishwara prapthihi is same as Ishwara gyana parpthihi. I want knowledge of God. Desirer of this knowledge is jignasu.

Ishwara Gyanam is only possible in a purified mind. So, I want a pure mind. Therefore Jignasu bhakta uses religion for purity of mind; and this conversion is conversion of a religious person into a spiritually religious person.

There are two types of religious people:

1. Materialistic religious person, one who uses religion for material gains.
2. Jignasu: One who uses religion for purifying the mind. He uses religion for purity of mind, purity of knowledge and this purity are meant for Gyanam, which is meant for attainment of God; attainment of God is meant for getting purnatvam and security. The jignasu bhakta becomes a Gyana Yogi, later on.

And, therefore, Jignasu bhaktha is a karma yogi; a karma yogi means a spiritually religious person; whereas a karmi is a materially religious person.

Jignasu Bhakta's travel is a long one. He has to go through Karma Yoga, then Gyana Yoga and then become a Gyana Bhakta. He has discovered the Lord. That lord is never away from Me. In him, dvaita bhakti is converted to advaita bhakti.

There are four levels of bhakti. So don't feel bad about being an artha bhakta. There is nothing wrong in praying for cure of a disease or any other problem. God says, gradually move from artha bhakti to the next stage. Gradually move from Artha to

artharathi or jignasu or gyani. Scriptures are generous; they say one can do this over many lives.

Shloka # 17:

000000 000000 0000000000 000000000000000000
 000000 00 000000000000000000 0 0 00 000000007.1700

Of them all, the knower, ever integrated and exclusively devoted, excels; for I am exceedingly dear to the knower and he is dear to Me.

Sri Krishna talked about four types or levels of bhakti. Human mind likes to compare and asks who is the greatest bhakta of the four. Among the four, the Gyani bhakta is considered the greatest one. This shloka also removes the misconception that one can be in bhakti Yoga without coming to Gyana Yoga.

Sri Krishna says a bhakti yogi too cannot escape Gyanam. Initially he can stay in karma yoga but later on he has to come to Gyanam. Here it does not mean coming to meditation. He has to come to a systematic study of scriptures under a qualified acharya. Scriptures talk of saguna and nirguna Ishwara.

Bhagawatham discussed both saguna and nirguna god; but it distilled out the nirguna portion out. It removes another misconception that a Gyani has no bhakti. Sri Krishna says a nirguna Gyani is the greatest bhakta of all.

This Gyani is ever steadfast in Me. In Dvaita bhakti, god arrives and departs. In advaita,“ I” am never away from god. Ekabhakta is advaita bhakta.

Talking about love there is a discussion in Brihadaranyaka Upanishad on this topic. **The question is whom does a human being love most? The Upanishad says, no one loves anyone; everyone loves one's self, alone. Everyone is interested in one's own happiness only.** As long as those external factors

are conducive we love that person or thing; once they are not conducive, we drop them like a hot potato.

This is the truth. One is interested only in his own selfish happiness. Love of anyone else is conditional and only if it is favorable to him.

Scriptures say even love of god, where god is an object other than you, even this love is conditional. Self-love is the highest love. Object love is conditional and hence lower. If love of God is highest, it is possible under only one condition; then god should not be different from me. Only in this case can God's love be the highest. Brihadaranyaka Upanishad says, for a Gyani, God and self are one, hence it is highest love of all.

Shloka # 18:

000000 0000 00000 000000 000000000 00 00000
 0000000 0 00 0000000000 0000000000000000 0000000**7.18**00

All these (four) are noble; but the knower, I deem to be My very Self; for with an integrated self, he has resorted to Me alone, the goal without parallel.

When Sri Krishna mentions this, other devotees may feel bad. But God says, I love all devotees (bhaktas). The difference is that Gyani is identical with Me. In others, love of god is conditional.

This shloka is a mahavakya. It says Gyani is one with a committed mind, meaning his goal is liberation. He has come to the highest goal of life, Me.

In shloka the word Gatihi means goal. Other bhaktas have different goals. Citing an example: A couple without children pray to a rishi for a child. The Rishi blesses them. After some time the child is born, but later he dies. They go weeping to the rishi. Then the rishi gives them a boon to be

able to talk to the dead child. When they talk, the child asks, which parent are you? Child has had many lives with many parents. They then realize that even the best relationship is subject to arrival and departure, then they ask for the wisdom and they are given the knowledge. Therefore, any other gain in the world is an inferior one, as it likely to end; whereas, Sri Krishna says, that Lord is not a relative accomplishment rather he is the highest accomplishment.

Shloka # 19:

ॐ नमो भगवते वासुदेवाय ॥ १९ ॥
ॐ नमो भगवते वासुदेवाय ॥ १९ ॥

At the end of many births, the man of knowledge directly reaches Me, realizing, “Vasudeva is all”. Such a magnanimous soul is extremely rare.

Sri Krishna admits these four stages of bhakti cannot be completed in one janma.

Citing another example, if you don't have water and god asks you, do you want water or Me; that is why Vivekananda or somebody said; in front of a hungry person, even God has to come with only bread, not with the Gita.

So, we use bhakti for worldly desires. Veda purva is for use of bhakti for sakama bhakti. Then, after getting bored with life, I want moksha, but don't know how to get it. Only after many births will one value moksha; he then comes to gyanam and becomes a gyani.

What is his Gyanam? His gyanam is that Vasudeva is everything. What does this mean? Does Vasudeva mean Sri Krishna the personal god? Personal god is finite and limited. Personal Sri Krishna is not everything. Here Vasudeva refers to infinite Brahman. The word Vasu means existence principle in all beings. Deva means Chid rupam. So, he is sad-chid-rupam. He

is the formless Sri Krishna. He is entire creation. Such a gyani mahatma is a very rare being. Arjuna, May you try to become a gyani bhakta.

Take away:

Upanishad says, no one loves anyone; everyone loves one's self, alone. Everyone is interested in one's own happiness, alone.

Love of anyone else is conditional and only if it is favorable to him.

With Best Wishes

Ram Ramaswamy

Bhagawat Geeta, Class 105: Chapter 7, Verses 13 to 16

Shloka # 13:

संख्येयं त्रैविध्यं प्रकृतिरित्युच्यते
प्रकृतौ प्रलयोऽस्मिन् प्रकृत्यज्ञो बुधः॥7.13॥

Due to three (kinds of) objects, consisting of (prakriti's) constituents, this whole world is deluded; it fails to cognize Me, the immutable (Reality) beyond them.

Continuing his teaching of the Gita, Swami Paramarthananda said, with the 12th shloka of chapter 7, Sri Krishna has completed talking about Ishwaraswarupam. In his talks, Sri Krishna points out that the entire universe is God himself consisting of the Spirit (consciousness) that is of a higher nature and Matter, consisting of an inferior nature.

Wherever there is change it is Apara Prakriti (AP). So, the whole world, the body, mind and thought all are AP. The Para Prakriti (PP) is the consciousness alone, which is changeless and formless.

Now, Sri Krishna discussed another topic, raising the question as to why do humans suffer when everything in the universe is divine? Why does one feel incomplete, insecure and not at ease? This is a universal problem. Different people solve it in different ways. Some acquire material things, some seek position, some seek power, name, family etc. Nothing, however, seems to work. This universal problem is called Samasra. Sri Krishna is diagnosing the problem in shloka # 13 and provides its resolution in shloka # 14.

The problem is this: Since the Para prakriti (PP) is formless, colorless and not accessible for our perception, we generally miss it. Hence it is also called “Aprameya” meaning not accessible to perception.

We only seem to see things that are Apara Prakriti. We don't even attempt to know PP, as AP keeps us busy. Sri Krishna calls Apara Prakriti, Mohini. Asuras lost amritam (knowledge), due to Mohini.

I am always preoccupied by this universe; by this body (sringaram), thoughts and emotions. This universe is so attractive, that one gets carried away. Hence one has no time for PP. So, they do not even to attempt to know Me, one who is not subject to change, says Sri Krishna.

Now, what is the harm if I do not know PP?

If AP provides me with everything, why do I need PP?

You should know that AP cannot give you some of the basic fundamentals of life. AP cannot give purnatvam. Everything in AP is finite, bound by time and space. Hence shanti and fulfillment will not rise.

PP alone has purnatvam. AP will not provide purnatvam.

Everything in AP is in constant state of flux. Nothing is shasvatham (permanent) in AP. Thus, AP cannot provide security; money, power, people all disappear over time. The human being wants something to hold on to.

Citing an example even for a dip in the Ganges, in Hardwar, you need to hold on to a chain. One needs at least one changeless relationship, meaning where the relationship is not changing. Unfortunately, we tend to stick to something connected with AP; then we lose that relationship as well, only to regret. That changeless one, Shasvatha Vastu, is Bhagawan. In AP nothing is permanent. Only PP is permanent, but we miss it and accordingly suffer as well. This is the trouble with humanity.

If so, what is the solution? The solution is, do not hold on to Apra Prakriti. Use it to play around. Hold on to Para Prakriti. Play in the river but hold on to the chain.

Shloka # 14:

மாயா மாயை மாயை மாயை மாயை மாயை
மாயை மாயை மாயை மாயை மாயை மாயை 7.14

Indeed this divine delusive power of Maya is hard to cross over. Those who surrender themselves exclusively to Me pass beyond this Maya.

Citing an experience near Badrinath, while crossing mountains there are many paths. While the hill appears small, they are in fact quite far away. In one such trip, Swamiji slipped and

tumbled down a bed of dry leaves. They did not offer him a purchase. Luckily there was a tree stump that he held on to and saved himself. What saved him was motionless. The tree stump is analogy to PP while dry leaves are like AP.

This AP is Maya, capable of tempting the human mind. Maya is Mohini. It turns mind away from PP. It is very powerful and we cannot transcend it by our own intellect. Maya has three gunas to trap us. Chapter # 14, later, details these gunas. The AP is also in the PP. It is dependent on PP.

So, what is the solution?

Those who surrender to Me will obtain Ishwara Kripa; that will lead one to the Guru; who will lead to the teaching; and then, shastra will lead you to Yourself.

Those who practice Bhakti will cross over the Maya. So, Bhakti is the solution.

What is Bhakti? Sri Krishna clarifies it in later chapters. For now, let us be aware that Bhakti goes through three stages. They are:

1. We see the Lord as a means for a material end. This is known as Manda Bhakti.
2. God is not seen as the means but seen as the end itself. One goes from world dependence to God dependence. This is known as Madhyama Bhakti.
3. God is neither the means nor the end. God is "I", myself. Means and end are both different from me. The real God is never away from me. This is Uttama Bhakti.

Only in Uttama bhakti one gets liberation.

Shloka # 15:

□ □□ □□□□□□□□ □□□□ □□□□□□□□ □□□□□□
□□□□□□□□□□□□ □□□□ □□□□□□□□□□□□7.15□

Base, deluded, evildoers do not surrender to Me; due to Maya, they have been robbed of knowledge and they assume a demoniac attitude.

Here Sri Krishna points out that many people don't take recourse to Bhakti Marga, as they don't have the punya from previous life. Such people are deluded by Maya that keeps them busy chasing after money and entertainment. They lead a life to earn and entertain. It does not allow them to come near shastras. Maya robs one's discrimination power. One sees impermanence all around but still does not turn his mind to God. He thinks impermanent as permanent.

To remove our delusions God has created Guru and Shastra. They provide us with the “how to ” manuals for leading our lives.

The Moodha, deluded ones, think they know everything and hence don't take help of Guru and shastra. Thus they become the lowliest among humans. They miss using this life to accomplish its highest goal. They are called Nara-Dhamaha or mean people and indiscriminate people. They are a problem to themselves as well as others. Any amount I get, I am not satisfied. The desire is for more and more. A time comes when we cannot fulfill our desires (income) by legitimate means. Then we start cutting corners. Initially it pricks our conscience, but over time our conscience also becomes blunt. Match fixing by cricketers is a good example of this. Why should

these cricketers fix the match; when their earning is so much and they are adored by the society; but there afterwards they lose everything and it is never possible to recover; life is gone; For such a person, life was artha kama pardhana and they became Asuric Svabhava. They are unfortunate people.

Shloka # 16:

[illegible]

Arjuna! Men of righteous acts are four fold. They resort to Me, O best of Bharatas! They are afflicted,

The knowledge seeker, wealth seeker and the knower.

Now there are punyavans too in this world. They are known as Sukritha Bhakthas. Swamiji says bhaktas are of four types. They are:

2. Artah Bhakta: These are people in whom devotion rises when a crisis occurs. They are Sakama bhaktas. Artah means one who is in distress. This starts in childhood itself. A good example is facing an upcoming exam, students turn to God for his blessings. Shatras give examples of Artah Bhaktas. They include Vibhishana, Prahlada, Druvah, Panchali and Ahalya.
3. Artharthti Bhakta: One who desires wealth. Whenever he starts something he wants to benefit from it, so he prays. Here bhakti is used for obtaining something.

Both Artah and Artharthi Bhaktas are manda Bhaktas. They are interested in using God to get something or as a means. Swamiji says, for them God is Give-up-able.

4. Jignasuhu: One who is interested in knowing more about God. His goal is God. His is a Madhyama nishkama bhakti. His thought process is, to reach God I am ready to sacrifice everything.
5. Gyani: He has discovered that God is not away from him. God is not a means or an end to him. He realizes, God is Me.

Take away:

Those who have Bhakti will cross over the Maya. Bhakti is the solution to reach Para Prakriti.

With Best Wishes

Taitreya Upanishad, Class 36

Ch 2, Anuvakaha # 7, shlokas # 1:

In the beginning was verily this non-existence. From that existent was born. That created Itself by Itself. Therefore, it is called the self-made or the well made. (shloka 1)

Continuing his teaching of the Upanishad, Swamiji said,

We are in chapter 2, Anuvakaha 7 that begins with a Rig mantra quotation. No new teaching is imparted here. It says Brahman is the intelligent and Material cause of universe.

Brahman with Maya is the real cause. Maya is not separate from Brahman. It is like the Shakti of a person. It is the Shakti of Brahman. When we say, somebody is coming, it means, he is coming with all his powers of seeing, hearing, talking, intelligence etc. This Mayasahitam Brahman is called Asat in the shloka. Before Srishti, Brahman with Maya alone existed.

Brahman all by itself, without Maya, is beyond transactions. Maya is present in a potential form in Brahman. Matter is also in a potential form in Brahman. Brahman with Maya are both not aware before transactions, hence they are not available. Hence they are considered non-existent and hence called Asat.

Therefore, Asat can be explained as Brahman plus Maya in a

potential form. The raw material of creation is Ishwara.

Now, Sat is consciousness combined with matter in a manifest form wherein transactions can occur. Thus, earlier it was in an un-manifest form as Maya, however later it is now in a manifest form.

God did not look for a raw material and instrument for creation. A carpenter needs wood and a chisel to create his furniture. Subject, object and instrument together create the furniture. It is very similar to the way we create our own dream world.

Because of this versatility of God,
(subject/object/instrument, all in one)

Brahman is called Sukritam or Self Creator. **This is the fourth reason, per the Rig Mantra. Brahman is existent as the Self-Creator.**

Ch 2, Anuvakaha # 7, Shloka # 2:

This which was self-made.... that is taste (joy). Having obtained this taste, man becomes blessed; for who can breathe out or breathe in, if this joy were not there in the cavity of the heart? This Brahman Itself brings us joy.

In the next line it says, Brahman is existent as the source of ananda. The very existence of ananda is clue of Brahman. This process is explained in two stages:

1. Brahman is source of ananda for all Gyanis who do not go after the external world for ananda. Here humanity has been divided into two groups, Gyani's and Agyani's. Worldly people have Vishayanda. We think, since a Sanyasi Gyani is without Vishayananda, he should be a miserable person; however; reality is that he is quiet a happy person. What is his source of ananda? For such a person, his source is internal, that is Brahman. A logic

called parishesanyaya is used to explain this. This ananda comes from Brahman.

2. Really speaking not only wise people get ananda; the worldly people too get ananda from Brahman alone. Worldly people erroneously think they are getting ananda from their wife, children, possessions etc.

It is like a dog-logic. A dog chews on a bone. The sharp edges of the bone cut his mouth and it starts bleeding. The dog enjoys the blood thinking it is coming from the bone. Reality is that the bone only creates a condition for manifestation of dog's own blood.

So, whenever we think the world is giving us ananda, we are using the dog-logic. **No object in the world can give us sukham, say the Vedas.** If such was the case the world should give ananda to all the people. Reality is that while some people like a particular music, others do not. Thus, ananda is dependent on my attitude. External objects create a mental condition called shanti vrithi. In this state, my own ananda-swarupam becomes manifest. Worldly people enjoy ananda without knowing that it is coming from within them. A Gyani, however, knows this fact.

How do you say, Brahman alone is source of ananda?

Chandogya Upanishad in chapter 7 says **happiness is a state of freedom from want or a state of purnatvam. Unhappiness is an emotional state of apurnatvam.**

Citing an example a man gets a watch in a lottery. He was complaining that the next day another man got a scooter. He thinks he lost a scooter that he never had to begin with.

Infinite alone is ananda. In alpa vastu, there is no sukham. Thus, Brahman alone is anantam and its source, nothing else in creation is.

Therefore, knowingly or unknowingly, when I am happy, I am

tapping into Brahmananda. Thus to recap:

First stage: Brahman is proved by ananda of wise people.

Second stage: Brahman is also proved by ananda of un-wise people.

Brahman is not a dry drab thing. It is full of juicy ananda obtained through knowledge. Hence, Satyam, Gyanam and anantam is also called Sat, Chid, Ananda.

Thus, a human being becomes happy only through contact with Brahman. Brahmananda is expressed in a quiet mind; one without desires and is contented. This topic is discussed later, in-depth, in Section 8 of this Upanishad.

In shloka 2, the last sentence starting with Eshaha Hyevanandayati, it says, this Brahman alone gives ananda to everyone. External ananda or vishayanada is also internal ananda. Here it says there is nothing called sense pleasure, it is all atmananda alone. **No external thing gives joy. They only create a mental condition where "my" joy is expressed.**

Vedanta is able to create a mental condition of joy even without wife, children and possessions. The wife and children are no more for taking joy (samsari) rather family members are for giving joy (Jivan mukti).

Atma alone gives all joy, nothing else gives joy. **Shankaracharya calls it the fifth argument for Brahman.**

Recapping the arguments for Brahman:

1: Brahman is nimitha karanam

2. Brahman is jivatma.

3. Brahman is the material cause; Brahman is existent as universe.

4. Brahman is Self Creator or Sukritam

5. Brahman is ananda.

Physical body is made of matter only. Thus, iron, calcium, and sodium deficiencies in our body prove this, as does biochemistry. Shastras say body is made up of five elements that are all inert. Logically body is inert, however, experientially, we find body is sentient. Both body and a table are made of matter, however, my body is sentient. So, body gets its sentiency from somewhere, while the table does not get it. An inert thing can't function intelligently without an intelligent principle propelling it, as evident in a moving car. Thus all our inert organs (eyes, ears, nose etc.) function due to Brahman.

So, the sixth argument is that we see sensible action in an inert body due to an invisible factor behind it. Thus, a fan rotates due to an external invisible factor called electricity. Similarly, our body moves via our atma tatvam.

Previously we said Brahman is source of all ananda. Now the shloka says if this Brahmasvarupa atma is not there in the body, then which living being will breathe in and breathe out? If atma is not there, there is no life. Therefore life principle is a manifestation, a version of Brahman. Without understanding Brahman, life will be a mystery. Science is still not able to explain life and death. But for Vedanta explaining it, Brahman will still remain a mystery.

Shankaracharya says this is the sixth argument. Brahman asti. I see intelligent activity in inert body. This is proof of Brahman. Every movement of yours is proof of Brahman, just like every movement of fan is proof of electricity. A refined intellect will appreciate this proof.

We have seen the sixth argument. Now we move to the seventh and final argument.

Ch 2, Anuvakaha # 7, Shloka # 3:

When this seeker attains the fearless oneness with Brahman who is invisible, incorporeal, inexplicable and unsupported, then

he becomes free from fear. When however, he makes even the slightest distinction in Brahman, then there is danger for him. That very same Brahman Himself becomes the source of fear for him who makes a difference and who reflects not. To the same effect, there is the following Vaidika verse.

Here teacher says my sense of insecurity will leave me only by knowing Aham Brahma Asmi. Insecurity is a constant refrain of an unwise person. A child from birth clings to its mother seeking security. Lifelong we are pursuing things due to a sense of insecurity. Hence it is a struggle. Because our actions are not deliberate rather they are dictated by a sense of insecurity, life becomes a struggle. Most of our reactions are due to insecurity. As we grow old, we seek security from children; hence the feeling in a woman that my daughter-in-law is taking my son away. Children too seek security in parents. Everything in life is finite and subject to destruction. Brahman alone is not lost, because it is Me. I cannot be separated from Myself. The day I am established in Myself, I don't have insecurity anymore. I, now, provide security to others.

Take away:

1. No object in the world can give us sukham (joy), say the Vedas.
2. No external thing gives joy. They only create a mental condition where "my" joy is expressed.
3. Happiness is a state of freedom from want or a state of purnatvam. Unhappiness is an emotional state of apurnatvam.
4. A fan rotates due to an external invisible factor called electricity. Similarly, our body moves via our atma tatvam.

With Best Wishes,

Ram Ramaswamy

Baghawat Geeta, Class 104: Chapter 7, Verses 10 to 13

Shloka # 10:

7.10

**Know Me, Arjuna! to be the eternal seed power in all beings;
of intellectual beings I am the intellect; of those who are
splendorous, I am the splendor.**

Continuing his teaching of the Gita, Swami Paramarthananda said, in chapter 7 from shloka # 4 onwards Sri Krishna has been talking about Iswaraswarupam. Ishwara has two parts, a higher nature or consciousness or para parkriti (PP) and a lower nature consisting of matter principle or apara parkriti (AP). This mixture of Chit and Jada is Ishwara. **This Ishwara is the root cause of the universe. From him the universe rises and into him it finally resolves as well.** While studying this aspect of god as the cause of the universe we come across a law that says, whatever is the composition of the cause is also the composition of the effect. Thus, if out of gold we make an ornament, the composition of both gold and ornament will be the same. Thus, if gold has, say, 5 % copper, the ornament will also have same amount of copper. We can say this law even applies to the character of children. The child's character is based upon the character of the parent.

We find that children inherit the characters of their parents. Since father and mother are involved, para and apara prakriti,

are represented in them. That is the reason, in a newly born baby people try to find if the baby looks like the father or mother. This characteristic includes good ones as well as bad ones, such as say a disease. Thus, this law is known as karana gunah karye anuvartate.

Since Ishwara is a combination of Chetana and Achetana, the universe is also a combination of these two aspects. Therefore all glories of Universe belong to Me alone. Therefore Sri Krishna wants a total transformation in us. He wants us, not to look at the world as world, but look at the world as Ishwara, with both its chetana and achetana aspects. He is preparing us for chapter 11 for the Vishwarupa darshanam.

And here Krishna makes a small difference, when we say the whole creation is the manifestation of the Lord. We know that not only the wonderful things are the manifestation of the Lord, even the terrible things also is ultimately the manifestation of the Lord alone; but Krishna is very diplomatically, very intelligently suppressing the negative aspect, he is claiming only the glorious and wonderful thing as himself. What is the purpose of this deliberate suppression? Because already we find it difficult to develop devotion to God. If Bhagavan is going to claim all the negative things also as himself, one will never develop devotion to God.

Therefore in initial stages only positive aspects are emphasized. Once we are mature, we will be able to expand our vision to include both positive and negative aspects or be able to look at the totality of Creation. Once we are sufficiently mature we see even the so-called negative aspects in a positive light. We find that they actually complement the positive aspects.

Citing an example, birth is considered mangalam while death is considered amanagalam. We don't like to talk of death of close one's. As per shastras we see death as amanagalam, not because

death itself is amangalam, rather it is because it is our mind that is still amangalam. Once our mind is mature, we will see everything as Ishwara and that everything in life is in complementary pairs.

Continuing with shloka # 10, Sri Krishna says, I am the intelligence in the intelligent people and I am the seed of the entire creation as well. Up to this we saw in the last class.

Shloka # 11:

000 00000000 0000000000000000
 000000000000 000000 000000000 000000000**7.11**00

Also of the mighty I am the might, devoid of appetite and attachment. Foremost Bharata prince! in beings I am appetite not opposed to righteousness.

The same ideas as last shloka are commented upon. Hey foremost among Bharata princes (Arjuna), in the strong, I am the strength. The word cause in Sanskrit is also known as Saram. Therefore, strength is the essence of strong people. Now, strength is of two types.

1. Positive strength, that is dharmic and constructive.
2. Negative strength, that is adharmic and causes destruction.

Thus Rakshsas had destructive strength while Anjaneya swami had constructive strengths. Sri Krishna says I am the constructive strength or dharmic balam. Such strength is free from selfishness (kama) and desires (ragaha). This is pure strength. Kama is desire for an object not yet acquired by me. The moment I buy the object the desire is completed. Now karma converts to Ragaha or attachment. Both Kama and Ragaha are poisonous.

I am also kama in people with desires or desire-ridden people.

Sri Krishna's desire , however, was desire without any impurity.

Desire is, in general, of two types:

- Dharmic, where his spirituality grows, in helping others, in desire for moksha (mumukshatvam). Any desire that promotes inner growth is dharmic. Even desire for money is good so long as it is used for sharing with others or as required by pancha maha yagnaha.
- Adharmic desire: is one that pulls me down spiritually or destructive desires.

Shankaracharya says: Even money can be used for noble activities, noble activities will be useful for purification of mind; purification will be useful for knowledge. Knowledge will be useful for liberation; thus even desire for wealth can be a dharmica iccha; and Sri Krishna says such a dharmic desire I am.

Shloka # 12:

00 000 000000000 0000 00000000000000 00
 0000 00000 0000000000 000000 0000 00 00000**7.12**00

Whatever things are satvic, rajasic and tamasic, know these to proceed from Me alone; I am not in them; they are in Me.

Until now Sri Krishna has talked about external world. Now he points out that external world as well as internal world (such as thoughts) is all a product of Ishwara alone.

Thoughts are inert by themselves. They appear to be sentient because of Para Prakriti (PP). Thus, the mind has Consciousness with changing thoughts (apara prakriti.) Thought and consciousness are closely intertwined as such difficult to differentiate. Citing an example:

In our hand, nails are there; fingers are there; lines are there; bacteria or dust etc; In fact, we tend to enumerate

everything except one thing. That is the light, which is not part of the hand; but which is a distinct entity; the light and hand are intimately mixed together. Of these two principles, the hand is the moving part while the light is the movement-less part.

Similarly the scriptures point out, within our mind also, there are two things; one is the changing thought, which is changing every moment. In fact, right from the first word that I uttered, your mind has been changing. In fact your mind has to entertain thoughts in keeping with the movement of my words. Every word I utter has to enter through your ears and you should know the meaning and in accordance with the meaning, a thought will come. And how are my words moving; fast; and what about your thoughts, they also change fast.

In Panchadashi, Vidyaranya Swami compares thoughts to the greatest dancer of the world; how the dancer violently moves the hands and legs so fast; similarly the mind assumes thoughts after thoughts; the thoughts are varying but there is one thing which is not varying at all; that is consciousness; I am conscious of your first sentence; conscious of your second sentence; conscious of your third sentence; conscious, conscious, conscious, no sentence; and even when the mind is blank without thoughts, I am conscious of the blankness of the mind.

This consciousness is PP while whatever changes, such as thought, is AP. Every thought that rises in you is AP. This AP (apara prakriti) has three gunas. They are: satva standing for knowledge faculty; rajas standing for dynamism or activity; and tamas standing for dullness or delusion. So knowledge, activity, and delusion, satva, rajas and tamas, are three gunas belonging to aparaprakriti, and now the thoughts, which are products of apara prakriti, they also will have three gunas.

Thus, thought, a product of AP, also has the same three gunas.

Thus, body and mind also have these three gunas. We will study them in detail in chapter 14.

In short, varieties of thoughts occur in the mind; and all of them arise from where? Sri Krishna says, all those mental states are also born out of Me alone. Which part of Me? The apara prakriti part of Me alone.

Here Shankaracharya adds a commentary to clarify the interpretation:

Sri Krishna has said all thoughts are born out of Me alone. Thus, I can say God is responsible for all violence, jealousy etc in me, as well. Such a misinterpretation is possible. So, Shankaracharya says, God alone is Samanya (general) karanam. You and your free will are responsible for the specific (visesha) thought.

Citing an example. What is general cause of say, this hall? We can say the bricks and cement are the samanya karanam for the hall. The brick and cement do not determine the particular shape of the hall whether rectangle, square etc, It is my plan and desire that becomes the visesha karanam.

Citing another example, petrol is samanya karanam for movement of the car. Whether car should move on road or the sidewalk, that direction is not determined by petrol, rather it is determined by the driver, the visesha karanam.

Our discrimination power is visesha karanam.

This entire creation is dependent on Me, the cause. An effect depends on the cause. **Try to remove gold and have an ornament; it is not possible. Effect depends upon cause. Cause does not depend on effect.**

Arjuna, I do not depend on the world; that is why during pralayam; even when the whole world is resolved, I continue to exist. I don't depend on product. God is therefore called

Satyam as world depends upon him while the dependent world is called a mithya.

Shloka # 13:

[illegible]

Due to three (kinds of) objects, consisting of (prakriti's) constituents, this whole world is deluded; it fails to cognize Me, the immutable (Reality) beyond them.

With the previous shloka Sri Krishna concludes the topic of Ishwara svarupam, the nature of God and the main points mentioned were:

1. God is a mixture of para apara prakriti; that is chetana-achetana tatvam;
2. The second feature is God alone is the Srishti-sthithi laya karanam of the world, is the creator, the preserver and the destroyer; Srishti-sthithi laya karanam is the second important feature;
3. And the third important feature is God being the cause, He alone manifests as the entire world and therefore world is the manifestation of God; the world is divine. This is what is called Vishvarupa Ishwara; this is the third important feature
4. And fourth and final thing is since God is the cause and the world is the effect; God has independent existence; therefore God is satyam; the world however, has a dependent existence and therefore is mithya;

Then, Sri Krishna discussed the topic of: **why there is suffering in the world when everything is God?** In this shloka he gives the answer. It is a very important shloka. It is a diagnosis of all our mental problems.

Correct diagnosis is important. We have never really analyzed why sorrow comes in our life? I thought education, then job,

getting settled, having children and so on would solve our problems. But we still do not know why we mental problems of depression, anxiety, fear, sorrow, irritation, anger, jealousy; because we are treating the disease called bhava roga without diagnosis.

What is the diagnosis of Sri Krishna?

Sri Krishna says whole world is a combination of PP and AP.

PP: It is the changeless chetana that is nirguna, nirvikara, formless, propertyless, Consciousness principle.

AP: It is the achetana that is changing, with properties and is the matter principle. AP is perceptible to our sense organs. Sound, form, smell, taste and touch are evident to sense organs.

In the PP and AP mixture we are attracted to the visible and changing AP. In this attraction we lose sight of the invisible PP. Citing an example, you are so much carried away by the hand and its motion, that you are always distracted away from the very light principle. And that is why you take it lightly. In a movie, the screen is the motionless substratum; but once the movie is on, you are so much absorbed in the changing characters; that you loose sight the changeless screen and once you miss the para prakriti; Sri Krishna says, you are in trouble. **And therefore, our problem is losing sight of para prakriti (PP).**

Take away:

In the Para Prakriti and Apara Prakriti mixture known as Samsara we are attracted to the visible and changing AP. In this attraction we lose sight of the invisible PP, the divine.

With Best Wishes

Taitreya Upanishad, Class 35

Chapter 2, Anuvakaha # 6, Shloka # 3:

He desired, “ I shall become many and be born. He performed tapas; having performed tapas, He created all this whatsoever (we perceive). Having created it, He entered into it. He became the manifest and the unmanifest, the defined and undefined, the housed and the houseless, knowledge and ignorance, truth and falsehood and all this whatsoever exists. Therefore, it is called Existence. In this sense, there is the following Vaidika verse”

Continuing his teaching of the Upanishad Swamiji said, in Anuvakaha six of Brahmanandavalli, the teacher is dealing with topic of Creation as well as answering questions posed by a student.

He says Brahman is the nimitha karanam. Brahman is the intelligent cause. Brahman descends, as it were, and takes avatara as Jiva. That Brahma Chaitanyam has to come down as the Experienter Consciousness. This Brahma Chaitanyam is the jiva atma. This Brahman alone experiences this world. Waker comes to swapna prapancha. Waker becomes the experienter of dream world. Waker becomes a part of the dream

Citing an example, some cinema directors also become heroes in

their movie. We are all producers, directors and hero's of our swapna prapancha. Even as Waker is proof of the dream, the very existence of the Waker is proof of Brahman.

Just as Waker is material cause of swapna prapancha Brahman is the material cause of the universe.

Describing the four pairs of words in the shloka: Sat, Tayat; Niruktam and aniruktam; Nilayam and Anilayam; and Vigyanam and Avigyanam, they all prove that Sthula and Sukshma prapancha are created by Brahman. Karana prapancha is not created; it is already present in Brahman as Maya. Thus, tonight's dream is already present in you as a potential dream. This potential dream is called Vasana. The tiger of the dream is in you, as a tiger vasana. Any vasana not in you can never come up as a dream. So also in Brahman, Maya is present and it comes out as his dream of this world.

Sthula prapancha (sthula sharira) is thus, Sat or Nirukta or Nilayam while Sukshma prapancha (sukshma sharira) is Tayat, Anirukta or Anilayam.

For sthula prapancha, physical world and body are all tangible. Niruktham means well defined, thus physical body can be clearly seen.

Sukshma sharira, however, is not clearly defined. It is vague. Hence the statement when we say, " I am not able to understand his mind."

Nilayam means supporter or tangible while Anilayam means non-supporter or supported one. Example cited was, gas (intangible) for cooking needs a container (tangible). Thus, also, Ayatanam (tangible physical body) encloses Sukshma shariram (intangible).

Describing usage of verbs, Upanishad says Brahman "becomes" the world. However, it also says, Carpenter "creates" furniture and wood "becomes" furniture.

The word Vignana means chetana prapancha while Avignana means insentient matter, which is also Brahman. Insentient matter is of two types. Stone, wood etc are insentient matter (without RC). Mind is also an insentient matter, but a very subtle one. Because it is very subtle, mind can reflect or borrow consciousness. Due to this property the material mind appears sentient. It is a borrowed sentiency.

Citing another example: Difference between body and a table is that, body is with Chidabasha (RC) while table is without Chidabasha. When body dies it is also without Chidabasha. Both are however, Brahman alone.

Universe has two fields, Jagrit prapancha and Swapna prapancha. From point of view of swapna prapancha, Jagrit is real.

Expanding on the word Satyam in the shloka, there are three types of satyam:

Prathibhashika satyam: Swapna prapancha or subjective reality.

Vyavaharika satyam: Empirical reality or waking state.

Paramarthika satyam: Absolute reality. It never becomes mithya. Absolute reality alone appears as empirical as well as subjective reality. Once we wake up, it is all absolute reality alone.

The word Anrithum means dream world.

Absolute truth alone appears as Vyavaharika and Prathibhashika satyam. It is similar to gold that appears to us as jewelry or the wood that appears as furniture. Similarly, the Brahman also appears as the Universe.

The third reason then is that Brahman is existent as the material cause of creation or the upadana karanam.

Recapping the three reasons for Brahman, so far:

First reason: Brahman is the nimitha karanam.

Second reason: Brahman is Jivatma.

Third reason: Brahman is material cause or Upadana karanam. Thus, Brahman is existent as the universe.

Explaining the third reason further, when gold has become an ornament, the existence of ornament is proof of existence of gold. How so? Gold alone is existent as ornament. Therefore, the very existence of ornament is proof of gold. Similarly, Brahman is existent as the world. Existence of world is proof of existence of Brahman.

When we say, ornament "is", the is-ness of ornament is borrowed from gold alone. If ornaments have their own existence, not borrowed from gold, then we can say a watch has its own existence, as does a bangle. The question is, does a bangle have its own existence even after removal of gold? Reality is that bangle cannot exist without the gold.

Thus existence of every product belongs to the cause alone. When I appreciate the aksha, vayu, agni, bhumi etc., the "is ness" of all these things does not belong to any one of them. The "is ness" belongs to the Brahman alone.

Shanakaracharya commenting on Dakshinamurthy stotram says, when you see existence, it is Brahman.

With regard to this idea (Brahman has become creation) there is the following Rig mantra.

Ch 2, Anuvakaha # 7, shlokas # 1 and # 2:

In the beginning was verily this non-existence. From that existent was born. That created Itself by Itself. Therefore, it is called the self-made or the well made. (shloka 1)

This which was self-made.....that is taste(joy). Having obtained this taste, man becomes blessed; for who can breathe out or

breathe in, if this joy were not there in the cavity of the heart? This Brahman Itself brings us joy. (shloka 2)

According to the Rig mantra, the whole creation was existent before its arrival. Thus, creation was not created. Creation is a very confusing word. Nothing can be created by anyone including God. Science says, matter cannot be created or destroyed. We, in Vedic religion, knew this millennia ago as Satkaryavada. It means matter cannot be created or destroyed. Then why use the word creation? It is used, because creation existed before its arrival in a potential form or as Avyakta Rupam. Anything in its un-manifest form can become manifest. This manifestation is called Creation. Manifestation is a better word than create.

Thus:

Unmanifest to manifest> creation or birth.

Manifest to unmanifest > Destruction or death. (wrongly called destruction)

Both are only transformations of the ever-existent universe. Hence janmam and maranam are called modifications or known as janma vikara and marana vikara. Before manifestation it was in un-manifest form called Maya. Maya was potentially in Brahman. Thus, dream is potentially in Me the Waker.

Before its manifestation the creation was un-manifest. The word Asat is used but it means non-existent or potentially existent.

Shankaracharya has written a commentary on this. He says, whatever is potentially existent is as good as non-existent. Why so? Potentially existent object is not available for utility or transaction. If you have milk but no butter, you say I don't have butter, although the butter is existent in a potential form in the milk.

Similarly a lump of clay has all potential forms of pot. We however say, we don't have a pot. Similar analogy is also made for coconut and its oil.

Therefore Upanishads say un-manifest universe is practically non-existent.

Describing creation: Maya+Brahman=Ishwara.

Our vasanas come out as our dream. When God dreams, the world comes out, just as dream world emerges from our vasanas and they become tangible in dream.

That Ishwara converted himself into Creation just as the Waker converted himself into dream world

In dream, I convert myself into subject, object and instrument world. Similarly, Ishwara converted himself by himself to Himself; meaning he did not use any other material cause.

God does not use any instrument. I am raw material, I am creator and I am the instrument as well. With a carpenter, however, it is different. He is different from the wood as well as the chisel.

Because of this extraordinary feat (subject/object/instrument, all in one)

Brahman is called Sukritam or Self Creator. He multiples himself, enjoys the drama and then withdraws.

Now God does not forget himself in his creation; I, however, forget myself in my dream.

With Best Wishes,

Ram Ramaswamy

Baghawat Geeta, Class 103: Chapter 7, Verses 7 to 10

Shloka # 7:

कुतश्चैतन्मया यत्सर्वं धृतम् ।
यत्तु मे भवति सर्वं धृतम् ॥ ७.७ ॥

Nothing whatsoever is beyond Me. All this is strung on Me like clusters of gems on a thread.

Continuing his teaching of the Gita, Swami Paramarthananda said, after introducing the subject matter in the first three shlokas of chapter 7, Sri Krishna has now entered the main topic of the Gita. This topic continues up to Ch 12. It is the topic of Ishwara swarupam. It discusses what is God and what is his function.

God is the Jagat Karanam. He is the cause of the universe.

God is the intelligent cause and the material cause. God alone has created the world; he also has evolved into this creation. God is not a person sitting in a place; rather the world itself is a manifestation of God. This view of the world is Vishwarupa darshanam. It requires understanding and maturity to look at this world as Ishwara's manifestation.

Until now we understand and assume that God is a person and Ishwara darshanam is coming in contact with a personal God. Sri Krishna wants to remove this idea. He wants to present Ishwara Darshanam as God's Vishwarupam. In Chapters 7 through 10, Sri Krishna prepares our mind, so that in the 11th chapter, we do not ask for the arrival of God, but we understand that God has already arrived in the form of akasha, vayu, agni, jalam and prithvi. So, thus, not only I should

understand what is God but also I should reorient the mind to see the very world as God. When I look upon God as a person, it is ekarupa Ishwara; Krishna does not want us to confine to ekarupa Ishwara; Krishna want us to know the aneka rupa Ishwara, the entire Gita is aiming at aneka rupa Ishwara darshanam or Vishvarupa Ishwara darshanam. Sri Krishna considers this Ishwara darshanam as superior because ekarupa Ishwara or a personal God is subject to arrival as well as departure.

A Personal God is subject to arrival and departure as can be seen from the Gopika's attitude towards Sri Krishna when he appeared and when he departed. They cried in distress whenever he departed. We do not decry this devotion, but this is a lower level of appreciation of God. Sri Krishna wants us to see the higher level of Vishwa Darshanam as sarvam Vishnumayam jagat or sarvam Shivamayam jagat or sarvam Devimayam jagat. He presents himself as jagat karanam.

Thus this Vishwa rupa god has two aspects, Para prakriti (consciousness) and Aparaprakriti (material cause). Sri Krishna points out that this Ishwara consists of two aspects or amshas; one is called the para prakriti (PP), the consciousness part; the chetana amsha, and apara prakriti (AP), the achetana amsha. Thus the higher and lower nature put together; consciousness and matter put together is God. And how does this God evolve into the universe. Sri Krishna said that it happens in two stages; in the initial stage, it is one para prakriti and one apara prakriti; then in the intermediary stage, the apara prakriti divides itself into 8-fold ashtadha prakriti while para prakriti continues as one; and then in the final stage the 8 fold apara prakriti becomes the manifold creation.

Thus, wherever you see the changing matter, you appreciate it as the apara prakriti of Ishwara; and wherever you see consciousness which you can feel in your body, if you have doubt, you can touch; it is para prakriti.

It is because of consciousness that you can hear my words. All the five elements (shabda, sparsha, roopa, and rasa and gandha) that provide awareness of my words is PP.

Citing example of Mahabali story; with one step the Lord has measured the entire world, with another step the Lord has measured the entire apara prakriti; and after that there is nothing else other than your problematic ego, which claims this is my body; this is my mind; this is my property. Therefore bhagavan takes the third step and removes that ignorance, the ego, to indicate that there is nothing other than God.

He says there is nothing other than God. There is neither jiva nor jagat other than Ishwara.

Shloka # 7, continued: There are no ornaments other than gold, no furniture other than wood, no wave or ocean other than water. River is only a name, there is no substance called river.

Therefore the teaching is there is no product other than the cause and the Lord being the cause, the world being the product, Sri Krishna wants to say the world is only a word; there is no substance called world; Then what is the substance? The substance alone is the cause and that cause is God.

Just as the thread is inherent in the garland, I am the sutra-atma or the thread inherent in creation.

Shloka # 8:

ममैवाहं ह्यस्य जगद्विष्णुर्वायुर्वा
ममैवाहं ह्यस्य जगद्विष्णुर्वायुर्वा7.8

I am the essence of water, 0 Arjuna, as also the light of the moon and the sun. (I am) the sacred syllable AUM in all the Vedas, the sound inherent in space and the manhood of men.

Sri Krishna wants us to not only understand this fact but he also wants our attitude to change as well. Attitude can change only through understanding. Our love for our parents is based upon the fact of all the things they have done for us; proportionally in keeping with that understanding; I develop the attitude of reverence. **Any attitude is based on knowledge.** When we meet a stranger we have no attitude, no Ragaha or Dveshaha towards him as we do not know him. Once we know the person we develop an attitude such as reverence. **As you understand the world so is your attitude. As your understanding of this world changes, so does your attitude change as well.**

When I look upon world as world, my attitude is ragah or dveshah; but when I understand the world as vishvarupa, the manifestation of God, then my attitude is one of reverence. In fact the basic teaching of Hinduism is reverence to the creation as manifestation of God.

Citing example of the mantra, Rudram, it is all about Vishwadarshanam. It says I worship the Shiva who is mud, fresh leaf, etc. We are asked to look at everything reverentially; it is same with sunrise. Thus, I worship the sun.

Similarly, we have got twofold job of understanding the teaching and also bringing about an attitudinal change, a perspective change or divinization of the world. When the world is seen as world, it will persecute you; it will create fear; it will disturb you; so the world as world will cause samsara; but the very same world as Ishwara will not cause any samsara. In fact, this is the first mantra of Ishavasya Upanishad; Ishavasyam

idagum sarvam. May you learn to look upon the very world as Ishwara svarupa, paint the world with Ishwara bhavana.

Now, knowledge can be gathered immediately but attitudinal change is slow. Understanding the teaching and bringing about

an attitudinal change is called divination of the world.

“Arjuna, when you drink water, consider that the essence of water is myself.” Hence in sandhya vanadanam water is worshipped.

This way I look at everything as God. I am the radiance in the sun and moon. This radiance is worshipped in gayathri mantra. This radiance is consciousness. I worship that brilliant sunlight, that consciousness alone that makes my inert brain into a live knowing instrument.

I am the aumkara, the essence of all vedas. Vedas are condensed at three levels.

First: At Gayathri mantra. Chanting gayathri is like chanting the entire vedas.

Second: Gayathri condensed into Vyahrithi mantra called the bhuhu, bhuva, suvaha, mantra.

Third: Vyahrithi is then condensed into AUM.

Therefore, Veda is condensed in AUM kara while AUM kara diluted is Vedas. AUM kara is essence of vedas, It is also myself. I am the essence of all pervading space (akasha brahman), the sound principle (shabda brahman); I am the very manliness (humaneness) in every human being.

Shloka # 9:

ॐ अहं पृथिवीं गन्धमा अहं अग्निं तेजसा अहं जगत्प्रणमः ॥
अहं जगत्प्रणमः अहं जगत्प्रणमः अहं जगत्प्रणमः॥7.9॥

I am pure odor in the earth; splendour in the fire; life in all beings; and austerity in ascetics.

The essential nature of prithvi, the earth is its fragrance or smell; among the five elements the earth alone has got gandha gunaha; the other four elements do not have gandha; so akasha

has got shabda gunaha, Vayu has got shabda and sparsha;
sparsha means touch, agni has got

Shabda, sparsha and rupam, visible; jalam has got shabda, sparsha, roopa, and rasa; and prithvi has got shabda, sparsha, roopa, and rasa and gandha.

This gandha or fragrance of earth is Myself as felt during a fresh rain in the mud.

The essence of fire is heat. In hot water you don't see fire but you feel the heat. This heat, I am.

I am the very life principle, without which a life is dead.

Hence in our religion, we respect all living beings. Other religions believe animals, plants etc, do not have a soul and hence they are for our consumption. Our religion is talking of ecological protection to protect life principle.

Among human beings there are more evolved beings known as Tapasvinaha. They have accomplished success in material or spiritual worlds. I am austerity in austere. I am saintliness in saints.

We also look at the five elements themselves as God; thus we have five temples, each temple dedicated to one one bhutha; akasha lingam in Chidambaram; Vayu lingam in kalahasti; agni lingam in Tiruvannamalai; jala lingam in Jambukesvaram, thiruanai kavil; and prithvi lingam in Kancheepuram. What does it mean? I learn to look or see the five elements themselves as Ishwara's manifestation; all these indicate an attitudinal change in us.

Shloka # 10:

7.10

Know Me, Arjuna! to be the eternal seed power in all beings;

of intellectual beings I am the intellect; of those who are splendid, I am the splendor.

I am the intelligence in intelligent people. I am boldness in bold people. Boldness can overcome obstacles; it is the bulldozer capacity. Such people conquer all obstacles. Hence they are known as Parakrama. I am Parakrama.

Because essential nature of everything is God, if we have got any of these virtues; like boldness, like intelligence; like austerity; like knowledge, if anyone of these virtues is in me; I should remember they really do not belong to me; but they are the manifestation of God. Credit is to God and not me. **I become humble, born out of knowledge. Humility coming out of humbleness is permanent, other wise it is superficial.**

Story of Yaksha. Kenopanishad has this story. When the devas got a victory over asuras, they became arrogant. Now Bhagavan came in the form of a mysterious yaksha to teach Devas a lesson. Yaksha asks Agni Devata to burn a blade of grass. Agni tries to burn the blade of grass but cannot do so. Agni realizes that the agni principle is God. God asks Vayu devata to lift a blade of grass. He is not able to. All this shows the essential nature of God.

Any award that we get is really due to God so place it in front of him as an offering. Knowing this will lead to humility. Ignorance of God leads to arrogance. This way, I don't feel jealousy when I know all glory is God's. I do not compare; it is comparison that leads to jealousy. When I appreciate God, there cannot be jealousy. We are only pipelines; the water belongs to God. All glory belongs to God. Whenever I see glory, appreciate it as Lord's glory. Humility, non-jealousy are benefits of Ishwara Gyanam. I am the seed, the primal cause. Let us always Keep this corollary in mind: **understanding Ishwara will give you humility; Ignorance of Ishwara will lead to arrogance.**

Causes are either intermediate or ultimate. Our parents are our cause. They had their parents, their cause. God is absolute primal cause, which is cause of everything. God himself is, however, a parentless cause (or parent) of creation.

The word sanatanam means without a beginning or causeless cause of creation.

Take away:

1. Sri Krishna says there is nothing other than God. There is neither jiva nor jagat other than Ishwara.
2. Therefore the teaching is there is no product other than the cause and the Lord being the cause, the world being the product, Sri Krishna wants to say the world is only a word; there is no substance called world; then what is the substance? The substance alone is the cause and that cause is God.
3. Any attitude is based on knowledge. As you understand the world so is your attitude. As your understanding of this world changes, so does your attitude change as well.
4. I become humble, born out of knowledge. Humility coming out of humbleness is permanent, other wise it is superficial.
5. Understanding Ishwara will give you humility; Ignorance of Ishwara will lead to arrogance.

With Best Wishes

Ram Ramaswamy

Baghawat Geeta Class 102: Chapter 7, Verses 4 to 7

Greetings All,

Shloka # 4:

पृथिवीमाकाशमग्निमवाप्यन्येन्द्रियमहो
मनसा चैवैकमममृष्येति त्वष्टा ॥ ७.४ ॥

The earth, water, fire, air, space, mind, intellect and the ego-sense constitute My distinctive eight-fold nature.

Continuing his teaching of the Gita, Swami Paramarthananda said, after the first three shlokas of chapter 7, Sri Krishna has now entered the topic of Ishwara Svarupam in shlokas # 4-12. He defines god as the cause of the universe. God is the intelligent cause and the material cause. Just as material cause evolves into effect, so also God alone becomes creation. God is manifested as creation.

What is God? He is a mixture of PP (para prakriti) and AP (apara prakriti). Both of them are eternal principles. They also have some differences.

PP, higher nature, is nirguna, meaning without properties.

AP, lower nature, is saguna, meaning with properties.

PP is changeless and not a subject of time.

AP is subject to change.

AP is dependent on PP and hence called mithya.

Thus, chetana-achetana; nirguna-saguna; nirvikara and

savikara, sathyamithya, this para and apara prakriti put together is God. Symbolically it is presented in our religion as ardhhanarishvara tatvam. And this mixture existed even before the evolution of the world.

Sri Krishna now wants to talk about how the universe emerges. Sri Krishna is now presenting the intermediate stage of evolution in shlokas 4 & 5.

In evolution PP remains the same and is not affected by time. In Narayaniyam, Bhattathiri defines God as beyond time and space parameters and because of this the para prakruti (PP) continues to be the one changeless principle. It is also an indivisible principle.

Change is possible only when something is within time; and the division is possible only when something is within space; and what is beyond time and space, is unchanging and indivisible; therefore the higher principle remains undivided and unchanged; whereas the lower principle called apara prakriti (AP), which is the basic matter principle or energy principle that, divides itself into eight fold sub-principles.

Thus $1PP + 8 AP's = 9$, this is at the intermediate stage of creation.

In the final stage the 8 AP's become the multifaceted creation. At that time the solar system, body, mind etc., all come into being. Mind is also matter. It is very subtle matter. Mind is part of AP as is the body as well as the entire creation.

Sri Krishna enumerates the eightfold principle consisting of earth, water, air, fire and space. Scriptures talk of two types of pancha mahabhutani. Five are sthula Bhutani that are concrete products and another five are sukshma Bhutani or subtle elements. Subtle are at intermediate stage, while gross are at final stage. Here Sri Krishna is talking about intermediate stage. He is talking about sukshma bhutani or

subtle matter. They include: Bhumi, apaha, agni, vayu and akasha. Three other principles of manaha, budhi, and ahamkara are also mentioned. These three are a part of samkhya philosophy. They are also part of intermediate stage of evolution.

Manaha is a technical word and does not mean mind.

Ahamkara is also a technical word

Budhi is also a technical word and does not mean intellect.

They are all matter principles of the intermediate stage.

With regards to these terms from Samkhya philosophy, Shankaracharya says, Manaha should be replaced by the word Avyaktam.

Thus there are eight principles at intermediate stage. Physical world has not yet come into being. It is still at the subtle stage. It is like the big bang moment where 100 th of a second after big bang is talked about. These eight are the AP.

Now Sri Krishna introduces the PP (Para Prakriti).

Shloka # 5:

अविद्यायां कर्मसु कौशलम् ॥ अविद्यायां कर्मसु कौशलम् ॥
अविद्यायां कर्मसु कौशलम् ॥ अविद्यायां कर्मसु कौशलम् ॥7.5॥

This is the lower nature; but My higher nature, know to be other than it. That constitutes, mighty armed! The living being by which this world is upheld.

This is an important and significant shloka of the Gita. The eightfold principle is AP, the lower nature. Matter and energy are both part of AP. Scriptures consider consciousness as superior and as PP. Consciousness is neither energy nor matter. Energy is subject to change. Mechanical and electrical energy are thus inter- convertible. Consciousness is however

not subject to any change. Conscious as the PP is beyond physical and chemical laws of nature.

Where is this PP located?

It is within creation. If so, where is it? Whatever changes is AP. Anything that does not change is PP. Even space expands and changes, per scientists. They are all AP. Even body changes. Mind also changes. World changes. Whatever I observe is AP.

So, again, where is PP? Whatever you experience is AP; while You the experiencer is the PP, says Sri Krishna.

Therefore the Observer, the Jiva is the PP, while observed world is AP. Hence the phrase, "Tat Tvam Asi".

The whole creation is a mixture of the experiencer and the experienced; observer and observed.

Electrical energy is converted into mechanical energy, in the fan and it is further converted into sound energy. Energy is subject to modification, whereas consciousness is that principle which is not subject to modification. Therefore consciousness is neither matter nor energy.

Then what is consciousness? Consciousness is consciousness. Just as electricity activates a gadget, so also the mind body complex is activated by this consciousness.

What is the glory of this consciousness?

Because of this Consciousness principle the entire material universe is sustained. "It" is experienced as the "life" principle.

At the physical body level; the consciousness is experienced in the form of the very life principle; if you have any doubt, touch your body, the body is sentient, means that the body is blessed by the consciousness principle; and as long as there

is life, the body is together and functioning; the moment the life principle is not there; the body disintegrates; the dearest body has to be disposed at the earliest; now this body is bathed, dressed and perfumed and all kinds of things are done; it is together; but without life, this will disintegrate. Extend this to the cosmic level; the

whole cosmos is in harmony, only because of the intelligence principle, the chaitanya tatvam; the world is functioning as though a cosmic human being; because of the para prakriti alone, the world is in harmony; and that is why in our religion; we look at the universe itself as a cosmic person; the visible part of the creation is apra prakriti; the invisible sustaining principle is called para prakriti; and the creation itself is called a cosmic person.

Thus, Purusha suktam means the cosmic person; or in Tamil, it becomes Perum All; the whole cosmos is Perum All; combine it and it becomes Perumal, which is same as Bhagavan.

Shloka # 6:

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ७.६ ॥

Know all beings to be born of this My dual nature. I am the source of the entire world as well as that into which it is dissolved.

In this shloka Sri Krishna talks of conversion of intermediate stage to final cosmos. In intermediate stage 1 PP+8 AP's were there. From these 9 came the creation or gross elements plus elementals. Elementals are produced by the elements. Thus body is an elemental made up of earth, water, fire, vayu and akasha (empty space), all elements. Elements are known as Bhutas while elementals are known as Bhautikam.

Bhuta> Bhautika. It is a PP+ AP mixture. PP+AP is known as Yoni.

And therefore God alone has evolved in the form of this creation. So Sri Krishna is revolutionizing the concept of God. Until we study this, our concept of God is of a person, sitting beyond the cloud; either shiva; sitting in Kailasam; or Vishnu, lying on the adhisessa etc.

So we have an idea of god that is in its infancy. We cannot appreciate God in his true nature in the beginning. Therefore the scriptures introduce God at three levels; God as a person, God as the universe, and God as the nirguna chaitanyam; the property-less Consciousness or the abstract truth.

Very few understand God as an abstract truth. Now Sri Krishna says do not look upon God as a person, learn to look at everything as my own manifestation. Therefore assert in your mind, digest and assimilate this teaching that not only the whole universe evolves out of me; the whole universe rests in me alone.

Pralaya always follows Srishti. Thus the process of expansion and contraction is an ongoing one for the universe. Everything goes to unmanifest state and then comes back as manifestation.

Thus, when we wake up, our thought and actions, all evolve. During night at sleep, everything is withdrawn. This process starts every day and closes every day. When did this all start?

A cycle or circle has no beginning or an end. It is an eternal process. But you can get out of the cycle through moksha.

“ I am the source, origin of the entire universe. In the same manner I am also the graveyard of creation. The whole thing will come to Me alone.”

Scriptures give another example. Out of my mind emerges the dream world. Here even time and space is generated. In a few minutes, the dream (REM) projection comes on. In these few minutes I get married, have children and grand children as

well. This is because dreamtime is different from waker's time. When I wake up, I swallow the whole thing. Similarly God is srishti-sthithi-layam karta of the whole cosmos and therefore srishti-sthithi-laya karanam.

Shloka # 7:

00000 00000 00000000000000000000 00000000
 000 00000000 0000000 0000000 0000000 00000**7.7**00

Nothing whatsoever is beyond Me. All this is strung on Me like clusters of gems on a thread.

Normally when we study creation there is one law we observe. Every cause has its own cause. Thus our parents were products of our grand parents. I am product of my parents. Every cause also has its own cause.

If God is the cause, then who caused God? In effect who is God's parent? Sri Krishna says I am the parentless cause of creation. Thus:

PP: is anadi or without beginning.

AP: is also anadi or without beginning.

PP+AP: God is also anadi without a beginning.

I am the ultimate cause of creation.

In second line of this shloka an important philosophy is communicated.

God is material cause of creation. God has manifested as creation. Material cause is inherent in all products. All products exist because of material cause.

Thus Pot exists because of the inherent clay. Ornaments exist because of inherent gold.

I being the material cause of creation, I am its inherent

cause as well. A mala (garland) has an inherent thread (sutram) that keeps it together. I am inherent in creation, just like the thread of a mala.

With Best Wishes

Ram Ramaswamy

Baghawat Geeta, Class 101: Chapter 7, Verses 2 to 4

Shloka # 2:7.2

एषां विदुषां तेषां तत्त्वज्ञानं तत्त्वज्ञानं तत्त्वज्ञानं
तत्त्वज्ञानं तत्त्वज्ञानं तत्त्वज्ञानं तत्त्वज्ञानं तत्त्वज्ञानं 7.2

Exhaustively I shall set forth that knowledge together with its realization; once it is grasped, nothing more will remain to be known.

Continuing his teaching of the Gita, Swami Paramarthananda said, in the first three shlokas of chapter 7, Sri Krishna is introducing the subject of the Ishwara Svarupam. It is discussed in chapters 7 through 12. This topic discusses who is God; what is God etc. This knowledge of God introduces us

to two aspects of god; God as Gyanam (lower nature, Saguna) and God as Vigyanam (higher nature, Nirguna). Where God is seen as Saguna, there is duality; with form comes duality. Saguna swarupam is also known as Bheda swarupam. Thus Rama, Krishna and Shiva all have plurality. This is God's lower nature.

Higher nature is without form; all attributes are eliminated; there is no division. Thus, formless space represents advaitam (nirguna). Since higher nature is without attributes it is difficult for a beginner to conceive. It is too abstract for a beginner. Therefore, everyone has to start with Saguna Ishwara. Therefore scriptures prescribe Gyanam and the Vigyanam. Thus one goes from dvaitam to advaitam. Sri Krishna says, Arjuna, I will give you knowledge of both completely and convincingly. This knowledge will be so comprehensive that all your questions regarding God and yourself will be answered.

Three questions arise within us. They are:

- What is this world?
- What is God? Is there a God?
- Why am I born? Where am I going?

We have asked these questions of our parents but never got a clear answer. Until these questions are answered humans will be curious. Sri Krishna says, I will answer all these questions for you.

Mundaka Upanishad asks, what is that, knowing which everything else will be known? The Upanishad says, it is Paravidya, knowing which everything is known.

Shloka 3:7.3

ಉಪಾಸಕಃ ಸರ್ವಾಃ ಪುರುಷಾಃ ಸರ್ವಾಃ ಪುರುಷಾಃ
ಉಪಾಸಕಃ ಸರ್ವಾಃ ಪುರುಷಾಃ ಸರ್ವಾಃ ಪುರುಷಾಃ 7.3

Just one man among thousands strives to win it; among those

who know and strive, only one comes to know Me in truth.

In this shloka Sri Krishna talks about the glory of knowledge of God as Saguna and Nirguna. This knowledge is glorified as “rare knowledge”. Anything rare, we want to possess. You want something nobody else has. Why is this knowledge rare? Majority of people are busy pursuing other things than Gyanam. The scriptures talk about four purusharthas; dharma, artha; kama, and moksha; artha meaning security or wealth; kama means entertainment; dharma means punya for higher loka, and moksha means, inner freedom. Most people are running after dharma, artha and kama but not moksha. Even if one has desire for moksha, most do not know how to get it. Sri Krishna says the only method obtaining Ishwara Gyanam is through Guru Shashtra Upadesha Sravanam.

Now number of people wanting moksha are few; among them number of people, who want Ishvara Gyanam are fewer still; and even among majority does not know how to get Ishvara Gyanam. While they try all kinds of things for getting knowledge. They are still not able to obtain it. If there are say six billion people; out of this four billion are not interested in moksha; of the one billion left, fifty percent, they want moksha but they do not know the means to obtain it. And half of that, they know that Ishvara Gyanam is the means but they do not know guru shashtra Upadesha is the means; therefore they are all gone; after filtering; there are only very few who know that Shashtra Vichara is important. Among thousands of people only a few strive in right direction of guru shashtra sravanam to obtain inner freedom.

Now the word Siddhi in shloka means inner freedom; inner security; because according to shastras; ultimately insecurity is only a notion in our mind born out of ignorance; insecurity is a sense and that is why as long as we do not attack that inner sense of insecurity; whatever be the security you have outside; that will never give the sense of security, because really security does not come from outside. In India, one of

our prime ministers was killed by her own security detail.

So a few people have understood and they want to get rid of inner sense of security, but among them also, very few people succeed in discovering that inner security; and therefore even among those who strive in the right direction; a few people gain my knowledge. Here My knowledge is Ishvara Gyanam. So very few people know Ishvara Gyanam in reality; in totality; which should include both saguna, nirguna Ishvara Gyanam. Having glorified this knowledge Sri Krishna now wants to enter the topic proper hereafter.

Shloka # 4:

पृथ्वीवायुअग्निमानसबुद्धिमेवैतानि
अष्टांगानि मे भूतानि ॥ ७.४ ॥

The earth, water, fire, air, space, mind, intellect and the ego-sense constitute My distinctive eight fold nature.

Now Sri Krishna enters the main topic of the chapter or its central teaching. Shlokas 4-12 discuss this topic. It is one of the most important portions of the Gita discussing Ishwara Swarupam. All teachings of Gita in this area are based upon Upanishads. Nothing is considered Sri Krishna's own philosophy. Here he is reviving Upanishadic teachings. To understand this section we have to recapitulate the upanishadic background and upanishadic view.

All Upanishads define God as jagat karanam, or cause of the universe. Everything has two causes. Citing example of a desk, it has: 1) raw materials needed to make a desk; this is known as upadana karanam and 2) An intelligence principle to convert the raw material known as nimitha karanam.

Citing example of a hall, its nimitta karanam is an architect or an engineer while the upadana karanam are the bricks and mortar and all such things, Now the Upanishads point out that the Lord is the cause of the universe; and before the creation

came into being; this Lord, which is the cause of the creation or who was the creation alone, was existent Creation includes time and space. If he was alone before creation, what kind of a cause was he? It presents a dilemma. Scriptures say, since he was alone, he was both the causes, intelligent and material. From the standpoint of the intelligent cause, we say God created the world; from the standpoint of the material cause, we say God evolved into this universe. As intelligent cause, God is the creator, and as the material cause, God Himself has evolved into this creation.

How can I accept this as a fact?

Normally intelligent cause and material cause are different. The rice is different from the cook. Cook is different; rice is different; is there any doubt that rice is the material cause and the cook, the intelligent cause? They are also not identical.

How can one principle be, both causes? Upanishads say exceptions to the general law do exist. Mundako Upanishad cites example of a spider. All beings create their living space from external raw materials. A spider's web, however, is strong, light and is different. It is a wonder of creation. Spider spins the raw material from within itself; thus it is it's on material and intelligent cause. It is the Abhinna nimitha upadana karanam. God also is such a karanam.

What is nature of such a God? Upanishads say God consists of two principles put together. In our religion Ardhanarishwara symbolizes the two principles.

The two principles are:

- 1) Apara Prakriti (AP); the lower nature.
- 2) Para prakriti (PP); the higher nature.

Both have some common features and some uncommon features.

Common features: Both are eternal. Both are never created or destroyed. We can only transform matter.

Uncommon features:

1. PP is chetana Tatvam or the conscious principle. It can't be created or destroyed. Even some scientists are coming around to this conclusion. AP is material principle. Matter is also never created or destroyed and is known as Achetana. This conscious and material principle mixture is known as God.
2. Consciousness (PP) in pure form is without any attributes. Physical and chemical properties belong to matter. Consciousness is nirguna chaitanyam. AP is saguna; it has all properties. All of science is studying AP. PP, however, is not available for study. Some scientists also believe it will always be a mystery.
3. Chetana nirguna Tatvam does not undergo change under any conditions. It is free from any modifications.

Whatever changes are happening occur only at matter level; that is why some of the scientists have come to the conclusion that all our studies which are based on the physical and chemical properties will deal with only matter; consciousness will never be available for scientific study.

PP: Nirvikara, no change possible.

AP: Savikara, subject to change all the time.

The book Tao of physics also discusses this phenomenon. It says Nataraja represents the eternal dance of creation.

- PP is said to be Satyam; meaning it has independent existence. AP is dependent on PP and is a Mithya. PP+AP=Ishwara, the cause of creation.

Now you can imagine the state of evolution when God alone was there with both AP and PP within him. Then creation evolved and is called Srishti Prakaranam. It happens in two stages:

- Seed to plant;
- Plant to tree.

How does it happen or how does cosmology occur? Cosmology is mindboggling. Many theories exist for cosmology.

Sri Krishna presents evolution as per Samkhya philosophy of Kapila. It is a slightly different view from Vedic point of view. According to this, creation happened at two levels:

At **the first level** is there is only one para prakriti and one apara prakriti; this is at the pralaya or deluge stage;

Then came **the intermediary stage**; here the one-apara prakriti multiplies itself into eight-fold principle. It is similar to amoeba that multiplies itself into many.

All the while Para Prakriti, the consciousness principle remains the same. It is the material aspect alone that multiplies into ashtada or 8-fold apara prakriti.

Thus there were 8 fold apara prakriti's plus one fold para prakriti; totalling 9 at the intermediary stage of God.

And there afterwards comes **the final explosion**; final magnification wherein the ashtada prakriti multiplies into the manifold universe and now purusha comes into being.

During all this what happens to PP? Nothing happens to PP. It does not change. Conscious principle remains same. Only the materials cause changes.

Where is that para prakriti now? **Sri Krishna says stop running; that para prakriti is You the observer. So the very jiva tatvam; the very observing conscious principle, you who are the observer is para prakriti; and whatever is observed is**

apara Prakriti.

Take away:

So the very jiva tatvam; the very observing conscious principle, you who are the observer is para prakriti; and whatever is observed is apara Prakriti.

With Best Wishes

Ram Ramaswamy

Taitreya Upanishad Class 33

Chapter 2, Anuvakaha # 6, Shloka # 3:

He desired, “ I shall become many and be born. He performed tapas; having performed tapas, He created all this whatsoever (we perceive). Having created it, He entered into it. He became the manifest and the unmanifest, the defined and undefined, the housed and the houseless, knowledge and ignorance, truth and falsehood and all this whatsoever exists. Therefore, it is called Existence. In this sense, there is the following Vaidika verse”

Continuing his teaching of the Upanishad Swamiji said, in

Anuvakaha 6 of Brahmanandavalli we have just completed discussion of Pancha Kosha Viveka. Now a student raised some questions, anuprashnahas. Two questions were raised and a third was implied.

The first or implied question was, is there a Brahman? Doubts on this existence of Brahman are possible and legitimate as Brahman is not available for transactions. Anything not available for transaction we consider it as non-existent.

The second question was, assuming there is a Brahman; will an ignorant person merge into it upon death? As per shastras, any product will merge into its cause at its destruction. The very definition of destruction is that the product merges into its cause.

The third question is, will a wise person merge into Brahman at death?

Now the teacher answered the first question. In this answer many Vedantic ideas about creation were taught. Seven reasons were given as evidence of existence of Brahman. They are:

- Brahman is existent. It is the nimitha karanam. Nimitha karanam is the intelligent cause behind creation. We can infer this from our experience because any ordinary product has an intelligent cause behind it. A piece of cloth, a mike etc. all has an intelligent cause. Similarly, our complex universe also has an intelligent cause. Concluding that there is no intelligent cause behind creation does not make sense. Even scientists don't believe anymore that there is no cause behind creation. They know the natural laws of physics and chemistry but they are not able to find the cause of creation. Many scientists believe this cause cannot be found by scientific reasoning. It is this unknown X-factor that is brought out by the shastras. It has to be the Chetana Tatvam. It is a sentient intelligent

cause. It has to be an extraordinarily intelligent cause. This is Brahman, the nimitha Karanam.

When you see a wooden desk, do you ask, did a carpenter create this or do you say, it may have been created by a carpenter? Maybe can also mean, may not be. Did the wood slice itself? So, with respect to desk we accept the carpenter was behind its creation.

Now the question rises, how did Brahman create this universe?

Any creation has three stages to it.

- A deep & intense desire to create must come up. Without it nothing gets produced. Kama avastha and Tirva ichha are required.
- Visualization as to what to create has to occur? When we build a house we visualize how many rooms, bedrooms, bathrooms, puja room etc. are required? The house has to be created in mind before it comes into actuality.
- Actual implementation of the visualization: Here the concrete creation comes out. First and second stages are not visible, only the third stage is visible. Brahman also goes through these three stages of creation.

So Brahman desired to create the universe. I can desire because I have an instrument called the mind. What is the instrument of Brahman? The instrument is called Maya or Ichha Shakti. When Brahman uses Maya, it is called Ishwara. Brahman married to Maya and thus as the householder is called Ishwara.

Why should Brahman desire to create the universe and make us suffer? If there is no creation then there is no samara and no resultant suffering as well.

Desire to create comes out of apurnatvam. Kama is considered a product of avidya. Kama produces Karma and Karma produces Phallam.

Thus: Ignorance>Desire> Action>Result.

Therefore liberation is considered freedom from Kama. A free person is a desire-less person. A person becomes free from Samasara, once all desires are gone.

Now, Bhagawan desired. If the Lord is liberated, how come he has desire?

Bhagawan's desire is not born out of apurnatvam. It is a desire born out of knowledge as such it is a non-binding desire.

Why does God desire? His desire is meant for fructification of karma phalas of Jiva rashi's. All jiva rashi's have karma and phalam, which comes into being only when there is a Samsara.

Now a question comes, if creation is for fructification of punyas and papa's, how did punyas and papa's come to be, to begin with? They came to be from a previous Srishti. In present Srishti also Karmas will be there and they will result in a new Srishti. So Bhagawan has to create swarga and naraka. He has to create different lokas. To create all these, he must have knowledge of the karma of all Jivas. Not only does he have to visualize the right environment (where) but he also has to visualize the right bodies (who).

If so, how did past Srishti come about? Also, how did first Srishti come about? As per shastras there is no first Srishti, as the process is not a linear one. Our intellect has to get out of the linear thinking or one with a beginning and an end; else we will be frustrated.

We need to think in terms of cyclic thinking. Everything in creation is cyclic. Once we can think cyclic then the mind gets out of the tyranny of linear thinking. In a circle there is no beginning or end.

If you start and end there is no circle. If I start and come

back to beginning point, then it is impossible to say where is the beginning and where is the end.

Scientists also see the circulatory logic. So, every Srishti is an intermediate creation. There was one before and after it. Here we are now discussing the present Srishti. Therefore, Bhagawan creates Srishti for Karma phalam of jivatmas. He creates for the benefit of Jivarashi's.

Any number of nonbinding desires will not create samsara. The nonbinding desire has to be a pure one for that.

So the desire arose in Brahman that, "Now I am the universal father, let me multiply and become many lives." Like any father, say one with three children, Brahman also creates many children.

Thus: Aham> Aavam>Vayam.

I>We both> We All

Let me multiply myself by getting progeny. In creation, every species can reproduce only one of its own kinds. Thus, humans can reproduce humans; buffalo buffaloes etc. Bhagawan, however, is father of all species, because Maya can produce all Jiva Rashi's.

Once desire has come next is visualization; what appears where etc.? For this visualization, he requires knowledge of papam's and punyam's of all respective Jivas' (humans, insects, plants etc.). Such a Lord has to be omniscient. He has to fulfill karmas of many (parents, children; Guru shishya; brother, sister) etc. It is the result of fructification of visualization. This visualization is called Tapaha. He performed austerity through visualization. This is tapas performed through Gyanam. This tapas is performed with Maya as instrument. God, himself does not have hands and feet and indriyas to form them. Let us remember that nothing has yet been created.

Having performed Tapas for sufficient time (countless yugas) God created the whole universe. Even space and time were created. Just be aware that God has created whatever you experience in front of you.

Next question that arises is that between visualization and implementation there is a lot of effort involved; think of the effort of building a house; how difficult it is? How much time and effort has to be put into it?

However, shastras say, God did not put in any effort; he created the samsara just by his sankalpa.

Now, how is it possible to create by one's sankalpa? Shastras say, everyone can create by sankalpa. After all we create a dream world every night through our mind and vasanas. It is an effortless process. Dream is an unreal universe. How can you say that? Shashtra's say, this universe is also an unreal universe. Ishwara has created this universe, just like you create your own dream world.

If this universe is unreal, why do I feel it is real? Shastras say, you feel many things; thus, when you are in a dream, you consider it as real. When you wake up you feel the dream was unreal. It is the same with the waking state as well. We will realize it is also unreal, when we wake up to it. Thus, God created mithya universe by Maya Shakti. Thus, God exists.

CH 2, anuvaka 6, shloka # 3: (continued)

Ishwara created the universe. This universe is meaningful only when there are jivas or sentient beings to experience it. A house is useful only when sentient people use it.

God himself enters in the universe as Jiva rashis. Thus all jivas are Bhagawan. This phenomenon of God entering universe is known as anupravesha. Shankaracharya has written extensively on anupravesha. Brihadaranyaka Upanishad also discusses this topic.

In our dream world, who goes there to experience it? I create the dream; I enter the dream as dream individual to experience the dream. Thus, I create the tiger in dream; I enter the dream world and I experience the tiger. Thus, the waker, one in waking state, becomes the dream experience. So also Ishwara becomes part of universe he created.

With Best Wishes,

Ram Ramaswamy
