

which the Lord manifests as the manifold Universe.

This topic was also discussed in chapter # 10. Sri Krishna says there is no special effort needed to see God; whatever you are seeing is god alone. So when I am seeing a bangle; I am having svarna darshanam; When I seeing a chain, I am having svarna darshanam; when I am seeing a ring, I am having svarana darshanam, because svarna happens to be the material cause of all these three; extending the same principle, whatever effect in this creation I experience, whether it is akasha, agni or vayu; jalam or prithvi, I am having Ishvara darshanam; when I am seeing akasha, I am having Ishvara darshanam; whenever I am seeing vayu, whenever I am seeing agni as well. In fact I am at every time, in every place having Ishvara Darshanam. I am constantly having Ishvara darshanam only; if only I know this fact that Ishvara is the very substance behind this creation.

For a virat bhakta every place is a temple as he sees god everywhere. Thus, he is a devotee in every place. He is a devotee in all places at all times.

So this conversion of the temporary devotee into a permanent devotee is a very big transformation, which is result of vishva rupa appreciation. And once I am a permanent devotee, then my very response to situations in life will be different. Naturally raga and dvesha will be heavily neutralized and therefore mental disturbances also will come down. In fact such a virat bhaktha will become sadhana chatushtaya sampannah, effortlessly. And once he has got that sadhana chatushtaya sampannah, he will have only one goal in life. It is to recognize the next higher stage of Ishvara, moving from virat Ishvara to nirguna Ishvara. To remind you, we have discussed before, ekarupa Isvara, aneka rupa Ishvara and arupa Ishvara. Both stages are very important transformations and not that easy to accomplish. Once first conversion is over from ekarupa bhaktha to aneka rupa bhaktha then to come to nirguna Gyanam is not easy; but Sri Krishna promises, "my assistance will be there; I will cooperate with you; I will

make sure that his mind is a fit mind. And if guru is required, I will send one; if shastram sravanam is required, I will provide the opportunity; every thing I will do, until the nirguna Ishvara Gyanam takes place, which alone will give liberation." Thus Sri Krishna has completed his presentation of Eka rupa, Aneka rupa and Arupa rupa Bhakti.

And now Arjuna asks a question from shloka No.12 up to shloka No.18, which we are seeing now. Arjuna is interested in knowing more about Vishvarupa Isvara. Of course Sri Krishna has pointed out that everything in the creation is Bhagavan's manifestation alone; Lord plus nama rupa is equal to creation; but even though everything is the manifestation of the Lord, certain things in the creation are more attractive to us than others.

Thus, both a baby elephant and a cockroach are both god's manifestation. But we find a cockroach repulsive while we love a baby elephant. It is not surprising that Arjuna wants to hear about glorious, attractive things in creation be it from humans, flowers, animals etc. All have attractive things within their groups. Arjuna wants to know them so that he can focus on attractive things. He can use attractive object as a symbol of totality. Our eyes are limited in visualizing totality; so I take a finite symbol in meditation, just as we salute the flag for a country. Such a symbol is called alambanam. There are two types of alambanam.

Pratima alambanam: are figures representing gods such as Rama, Krishna etc.

Pratika alambanam: Shaligram, Shiva linga, Turmeric powder, flame of a lamp etc are examples of ways to visualize the abstract. Mother, Father, Guru, and Gyani are also used as alambanam.

So, Sri Krishna, give me a list. By this upasana I will see god everywhere. Citing an example, say I want to jump into a

river. The right way to go into river is to first pray to the river god and then walk in. Same with eating food, we should first make it an offering to God then eat the food. This way we try to see god everywhere.

Shloka # 18:

ॐ नमो भगवते वासुदेवाय ॥ १०.१८ ॥
ॐ नमो भगवते वासुदेवाय ॥ १०.१८ ॥

0 Janardana, narrate to me again [In addition to what has been said in the seventh and ninth chapters.] Your own yoga and (divine) manifestations elaborately. For, while hearing (Your) nectar-like (words), there is no satiety in me.

Arjuna glorified Sri Krishna before asking his favor. Sri Krishna is happy with the glorification. Arjuna asks, 0 Sri Krishna, constant petition receiver of people, Janaradana, may you enumerate your own Yoga Shakti to become the whole universe.

The mango seed has the potentiality to become only mango tree; it cannot become coconut tree; so also with milk it has the potentiality to give you only butter; but it cannot give you oil. Thus everything in the creation has a limited potential; we also have our own potential; but the greatness of Bhagavan's potential is that he has the potentiality to become the whole cosmos.

Suppose you have potential to sing, how to know it? From your singing I come to know your potential. Therefore yoga is always anumeyam; inferred;

Bhagavan has got infinite power; how do I know this; because he has created this world; the world is the testimony; world is the signature of the Lord; so from the world I know Bhagavan's yoga; which is nothing but the maya Shakti; yoga is nothing but the maya only;

Thus, Taittiriya Upanishad describes each organ of body and their respective glories. Even organ of evacuation is glorified; we realize its glory when it does not work or works too much.

You should not take even your winking faculty for granted; that is yet another beautiful gift. In everything, I should see the glory; as everything is Bhagavan's glory; but we are only going to take the extraordinary ones.

Even extraordinary glories are innumerable, so Sri Krishna says; I will choose a few of them as there is no limit to my glories as it consists of the whole universe.

Thus, O Arjuna, among the Kuru people you are also glorious and even you can become a symbol of meditation.

Shloka # 20:

ॐ सर्वं भूयान्मां त्र्यम्बकं यजामहे
सुव्योमिहोर्वाण्यन्मृतमोक्षकम्॥१०.२०॥

O Gudakesa, I am the Self residing in the hearts of all beings, and I am the beginning and the middle as also the end of (all) beings.

The list begins with this shloka and continues till Shloka # 38. He wants to first talk of Nirguna Brahman. Sri Krishna wants to first talk about the Vibhuthi of Bhagavan as Nirgunam brahma, which is the subtlest and which is the highest order of reality.

Chaitanyam is the fundamental glory of God as it makes every living being alive. I am Chaitanya swarupam. So meditation should be on, "I am alive". This also indicates respect for life. This also leads to Ahimsa Paramo Dhrama.

Because I see every living being as endowed with God's gift of life and therefore I revere life. Therefore my aim is to avoid himsa; or at least minimize himsa; even non-vegetarianism is

condemned; and vegetarianism is glorified because of the fundamental principle of reverence for any form of life. Therefore first glory is chaitanyam.

Nirguna Ishwara Vibhuti is the very existence principle. Thus when we say the chair is or pen is, the "is ness" is borrowed from material cause. The effect exists borrowing from cause. Cause is manifesting in effect as very existence or "is ness". Thus, God being cause and world being effect, God is the "is ness". When creation resolves, existence goes back to God.

Citing an example, an effect exists only by borrowing existence from the cause, an effect does not have its own existence; If an effect has got its own existence; then cause will be sitting there; thus, gold will be sitting there separately as will the bangle, which does not happen. Reality is wherever bangle is; gold must be there as well, because the very Is_ness of the bangle is the blessing of gold.

Similarly, Bhagavan being the cause, world being the effect, it is Bhagavan manifesting in the world as the very existence.

So the two main glories of Bhagavan are Chidrupa Vibhuthi; and Sat rupa Vibhuthi; so Sri Krishna starts with chid rupa Vibhuthi in shloka No.20 and He concludes with sadrupa Vibhuthi in shloka No.39. **So best form of meditation is sat chid rupam, to see Lord everywhere.**

Usually when these two glories are talked about it is difficult to comprehend them. So, Sri Krishna now comes to concrete objects.

He says, O Gudakesha, for you who are a sharp student the ideal meditation will be the consciousness which we have described often before. Do you remember the description of consciousness? Consciousness is not a part; property or product of the body, consciousness is an independent entity pervading the body and enlivening the body; consciousness is not limited by the boundaries of the body, and consciousness

survives even when the body dissolves. On such an abstract-formless-colorless-dimensionless-consciousness, I hope you can meditate upon.

And that is why I am giving you the title of gudakesha, means satvik one;(gudaka means tamo guna; or nidra; or a dull of intellect; isa means the master; the one who has conquered the dullness or tamo guna; which means the one who is satvik in nature; And therefore Arjuna, you look upon Me as the very consciousness.

And where is this consciousness? It is there in the mind of every living being; means abiding, indwelling, residing; even in animals and plants; therefore, in my mind also Bhagavan is there in the form of atma, the witness consciousness. **This witness consciousness witnesses the presence of thoughts, as well as the absence of thoughts.** When I say I have thoughts, I am aware of my thoughts; and when you say my mind is blank, the awareness of blankness is also because of that chaitanyam. That very chaitanyam I am; so; so this is Chidrupa Vibhuthi.

Take away:

In this chapter one more method is given to us as to how to seek God. The best form of meditation is to see god in everything, including all beings. This witness consciousness, Chaitanyam, witnesses the presence of thoughts as well as the absence of thoughts.

Baghawat Geeta, Class 132: Chapter 10, Verses 12 to 17

Shloka # 12:

सर्वं कर्तुं त्वं त्वं
सर्वं कर्तुं त्वं त्वं सर्वं कर्तुं त्वं त्वं
सर्वं कर्तुं त्वं त्वं सर्वं कर्तुं त्वं त्वं 10.12

Arjuna said You are the supreme Brahman, the supreme Light, the supreme Sanctifier. All the sages as also the divine sage Narada, Asita, Devala and Vyasa [Although Narada and the other sages are already mentioned by the words 'all the sages', still they are named separately because of their eminence. Asita is the father of Devala.] call You the eternal divine Person, the Primal God, the Birthless, the Omnipresent; and You Yourself verily tell me (so).

Continuing his teaching Swamiji said, Sri Krishna has given us the essence of Vibhuti Yoga in the first eleven shlokas that we have covered. Main points discussed were: Lord is the material cause of the universe, by which the Lord meant that Bhagavan alone is manifesting as the universe. This is because the material cause alone expresses as the product. And by which Sri Krishna indirectly points out that there is no thing called world; there is no substance called world; because there is no product at all, substantial, separate from the cause. Cause alone is the only substance, effect is nothing but name and rope; name and form added to the cause; which means since **the world is a product of the Lord which has emerged from the Lord, Lord is the only substance and appearing as the world with varieties of name rope.**

Appreciating the world as manifestation of God is vishwarupam

or virat rupam. In Vishwa rupam Lord's body is the universal world. Virat rupam is where Lord appears in his manifold forms. Thus, gold can be called as virat as it appears as bangle, ring and chain. So also god appears as Akasha, Vayu, Agni etc. One who appreciates this fact is virat bhakta. For him a special temple is not required to express his bhakti; his bhakti is always with god, in his mind, everywhere. Such a person is known as nithya yuktaha. For such a bhakta, Nirguna Brahma Gyanam is a lot closer.

For those people who are worshipping personal God, nirguna gyanam is farther. From personal God, one cannot reach nirgunam Brahma, there is an intermediary step and it is learning to appreciate the universe, as the manifestation of the Lord; which means I have got to have an expanded mind.

Only such a mind can discover that substratum of entire universe. Lord says, for a Virat Bhakta I will provide all help in attaining nirguna gyanam. Thus all three visions of Eka Rupa, Aneka Rupa and Arupa bhakti have been discussed in first eleven shlokas.

However, Arjuna wants an enumeration of god's glories. From shloka # 12 to # 18 is the presentation of Arjuna's request to Sri Krishna. He wants an exhaustive enumeration of God's glories. Before asking a favor he starts with praise. The mantra Rudram for Lord Shiva also starts with a praise to make Shiva happy and then it presents God with a list of demands that comes in the Chamakam section of the mantra. Chamakam is chanted fast so that God does not get bored with the list of demands. After a shruti then one asks for boons. Arjuna also does the same with Sri Krishna. He says you are supreme Brahman, Param Dhama, the consciousness principle; Param pavitram the scared principle; You are the Ananda swarupam which is why you are scared.

Shloka # 12: Second line of shloka:

Arjuna is not sure of nirguna Brahman as he has not experienced it. He says, great people declare that you are indweller of every living being; you are the sentiency of all organs of body; Pursuha shasvatha: You are eternal indweller of the human body; Divyam: You are chetana tatvam; body and mind are inert by nature; they function due to chaitanyam, that is You, the self evident consciousness; Adi Daivam: You are primal god from whom other gods have arisen. You are one who was never born, you are fatherless; Vibhum: You are located everywhere.

Shoka # 13:

Arjuna said You are the supreme Brahman, the supreme Light, the supreme Sanctifier. All the sages as also the divine sage Narada, Asita, Devala and Vyasa [Although Narada and the other sages are already mentioned by the words 'all the sages', still they are named separately because of their eminence. Asita is the father of Devala.] call You the eternal divine Person, the Primal God, the Birthless, the Omnipresent; and You Yourself verily tell me (so).

Arjuna says he gathered all this information from scriptures as declared by Rishi's. A Rishi here means a Gyani. A rishi can even be a Grahasta Gyani. They declare as in shloka # 12: the Rishis of heaven, Deva Rishi's, also said the same. One such Rishi was Narada, who spreads his knowledge while traveling. Other sages such as Ashita, Devala, Vyasa, all say the same as well. You also have declared as much, so and I have full shradha in you; you will never mislead me. Therefore, You are Brahman, you are param brahma param dhama pavithram, etc.

Arjuna said You are the supreme Brahman, the supreme Light, the supreme Sanctifier. All the sages as also the divine sage Narada, Asita, Devala and Vyasa [Although Narada and the other sages are already mentioned by the words 'all the sages', still they are named separately because of their eminence. Asita is the father of Devala.] call You the eternal divine Person, the Primal God, the Birthless, the Omnipresent; and You Yourself verily tell me (so).

Shloka # 14:

Arjuna said You are the supreme Brahman, the supreme Light, the supreme Sanctifier. All the sages as also the divine sage Narada, Asita, Devala and Vyasa [Although Narada and the other sages are already mentioned by the words 'all the sages', still they are named separately because of their eminence. Asita is the father of Devala.] call You the eternal divine Person, the Primal God, the Birthless, the Omnipresent; and You Yourself verily tell me (so).

bhavana etc. all these names are used to reveal god's glories.

Purushottama is a technical word; which will be explained in the 15th chapter, wherein Krishna divides the entire universe into three: kshara purusha; akshara purusha and uttama purusha.

Kshara purusha means manifest matter; or matter,

Akshara purusha is unmanifest matter or energy, and

Uttama purusha is the consciousness principle.

Thus the whole universe consists of only three; matter in tangible form; matter in intangible form, and the consciousness, which is different from both tangible and intangible matter. Tangible matter is called kshara purusha; intangible matter; Energy is intangible matter and is Akshara Purusha; and the consciousness is called Uttama Purusha; and Uttama Purusha reversed is Purushottama; Purushottama means the pure consciousness which is beyond matter.

And Oh Lord! you are not the physical body that I am seeing; your body is an incidental veshā; but the real You is nothing but pure consciousness; Oh

Purushottama you are chaitanya svarupa and chid rupa.

Bhūtabhavana: means creator of entire universe of things; Creator of all. You are the consciousness principle from which the entire universe evolves.

Bhūtesha: Controller of world. Omni potent one cannot only create but it can manage it as well.

Devadeva: Lord of all devatas; of all natural laws. Katho Upanishad says devatas function purely due to your control alone.

Jagat Pathe: jagat pathi means the protector of the world

from those people who try to destroy the world:

Whenever there is a threat to this world, you yourselves find out methods of protecting this world; therefore jagatpate.

You alone know yourself completely; others don't.

And how did you come to know; who was your guru. If Lord requires another guru; then the next question will be who is his guru. Therefore Arjuna says you know, not because of any guru, but you know by yourselves. So Lord was never ignorant to become a gyani. All the other people were agyanis; were born agyanis and they struggle, went to a guru; and studied repeatedly and at last somehow they become gyanis; but in the case of Lord; he never became gyani. So you are Sarvajnaha. Therefore you know yourselves by yourselves; and therefore you are the best person; tell me the details.

Shloka # 16:

ॐ नमो भगवते वासुदेवाय ॥ श्रीकृष्ण उवाच ॥
ॐ नमो भगवते वासुदेवाय ॥ श्रीकृष्ण उवाच ॥ १०.१६ ॥

Be pleased to speak in full of Your own manifestations which are indeed divine, through which manifestations You exist pervading these worlds.

Upto shloka # 15 it was glorification of God. Now Arjuna starts asking favors. He asks Sri Krishna humbly, to teach him all his glories and manifestations, his extraordinary glories.

Even walking is a glory; you realize it when you see a handicapped person. Citing a story, a man said he was very poor. He was taken to an organ transfer center. There every organ had a price and when he calculated he had between Rs 15 lacs and 20 lacs worth organs. You are a rich man. You are the richest man in the world; but we take the organs for granted because from birth it is there; and it is all money.

Arjuna asks the favor, I want you to enumerate the

extraordinary glories with which you pervade the universe. Why does he ask this favor?

Shloka # 17:

ॐ योगिं विदुः शिवं शक्तिं च त्रैलोक्यं
ॐ योगिं विदुः शिवं शक्तिं च त्रैलोक्यं 10.17

0 Yogi, [Here yoga stands for the results of yoga, viz omniscience, omnipotence, etc.; one possessed of these is a yogi. (See Comm. on 10.7)] how shall I know You by remaining ever-engaged in meditation? And through what objects, 0 Lord, are You to be meditated on by me?

Arjuna says I want this list of glories so that I can meditate on some of them. Every glorious object becomes an alambanam of god.

When we worship everything, in our culture, it means we worship god; thus, when we worship anything, we do not worship the thing by itself; but the thing symbolizes the Lord behind it, whether we worship the Sun, or moon, or trees or snake or river, each one becomes a pratheekam.

I can invoke you on one any one of the glorious objects and meditate. This is virat meditation on a symbol such as say a cow; the cow has many devatas in it and as such it is virat.

Brihadaranyaka Upanishad starts with worship of a horse; here one sees totality of all organs in the horse. Benefit of virat upasana by vishwa rupa visualization is that, I will come to know your higher nature. Even in sandhya vandanam we invoke god in water. Water is a glorious thing in creation. You see all gods, animals, and insects in that water. I invoke grace of God in that water. By doing this I will come to know your higher nature, arupa Ishwara, Nirguna Brahman. Nirguna gyanam is ultimate gyanam. And therefore Arjuna says, by meditating or visualizing the viswarupa in any glorious object, I will be able to come to nirgunam jnanam later; therefore give me a

list.

And other people criticize saying Hinduism is confusing; we say for them alone this is a disadvantage. They have no form or one form; whether you like or not; you have to worship that. But in Hinduism you can take any form; and the Lord and prepare your mind and come to gain that knowledge and be free.

Take away:

Since the world is a product of the Lord, which has emerged from the Lord, Lord is the only substance and appearing as the world with varieties of name rope.

The whole universe consists of only three; matter in tangible form; matter in intangible form, and the consciousness, which is different from both tangible and intangible matter.

Ram Ramaswamy

Mandukya Upanishad, Class 10

In the seventh mantra the Upanishads is talking about thuriya pada, which is consciousness not associated with any other padhas and looked at its own stand point. The first three padhas are divided into subject object duality. But in thuriyam, it does not have pramadha premaya duality. Thuriyum is neither pramdaha knower and premayam the knowable.

Thuriyum is neither a kower and a knowable object. If

Thuriyum is neither the subject nor the object, then what is it? It is apremayam. Not only it is can't be grasped by the sense organs, it can't be grasped by karmandhryam – hand etc.

The seventh mantra can be divided into three portions:

1. Thuriyum is different from the three knowers obtained in waking, dream and sleep.
2. Thuriyum is different from the three worlds obtained in the three stage.
3. Thuriyum is in and through all the three padha.

Thuriyum is achindhyam, inconceivable, unimaginable, incomprehensible. The witness of all the concepts can't be conceived.

Thiryum is avyapadesyam, not describable; beyond verbal description. however, Upanishads have been describing what can't be described. That is strengthened by the communications between guru and sishya.

Thuriyum is avyvahariyam, beyond all transactions; non-empirical; absolute. Because all our transactions are either through gyanedhriyam in the form of perception, or through karmendrayam in the form of handling etc. Thuriyum is beyond karmendreyam and gyanendrayam; thuriyum is beyond time and space because whatever falls within time and space, is available for transactions.

In the third part, the Upanishads positively defines thuriyum: It is pure consciousness, which has to be traced through atma prathyayaha – through the experience in the form of I, which we experience all the time. Thuriyum has to be traced through, atma pragyaha, I cognition, which is one continuous principle. There is one changeless I among all the experiences of life. By studying that I we should understand thuriyum.

The continuous I experience indicates, that I am a conscious

entity continuously present throughout my life. Experiences of life like happiness, sad etc. are not continuous conditions. Therefore, they can't be my real nature. The attributes like happy, sad, young, old etc. are subject to arrival and departure and the only continuous entity is that I am a consciousness being. I am something minus that something is thuriyum. Drop the non-continuous attribute part and own up to the consciousness part. When you drop attribute, you are neither a waker, nor a dreamer or a sleeper but chaitanyam.

Prabanjoba samam: Prabanja means the three-universe obtained in the three pada; sthula prabajna, sukshama prabanja and karana prabanja. Thuriyum is free from these three prabanja. Consciousness is ever without the universe; free from matter; never associated with the material world. That means there is no universe at all. This word is negating the first three padhas. To understand this, you should remember two laws:

1. Anything that is existent can't be negated. Whatever is sat can't be negated.
2. What is nonexistent need not be negated

Whatever is negated can't be sat (existent) or asat (non-existent) category. With this the vedas is negating the world. Therefore, the Upanishads says that the world is different than sat and asat or mithya category. What is different than existent and nonexistent: That will come under the third category like our dream; dream does not come under existent or non-existent category, but it comes under seemingly existent category. This unique category is called mithya. According to vedas, this universe is unreal, seemingly existent but it is not. Whatever is unreal or seemingly existent, can't be counted even though we experience it. The first three padhas are not real and therefore can't be counted, thuriyum is the only padha countable, thuriyum is ekam – it is non dual, advaidam, principle. Consciousness alone exist, matter is unreal and therefore can't be counted.

Advaidam is the next word occurring in this mantra. The entire third chapter is attributed to this word – Advaidam.

If consciousness is only one, why do we call it thuriyam? The Upanishads say that ignorant people wrongly think that consciousness is the fourth entity. Thuriyam is undisturbed by the material world so it is shantham and ananda swaroopam; This thuriyam alone is the real atma.

the form of furniture, which means I need not put forth separate effort for wood darshanam, because the furniture darshanam, is itself wood darshanam.

Karya darshanam is always karana darshanam; because there is no karyam other than the karanam. And therefore for that person who has this wisdom, he does not feel like closing the eyes for getting the darshanam of the Lord.

Until we get this wisdom, we think Lord is somewhere else seated and I have to do tapas for the darshanam of the Lord; but once I have this wisdom, I know I need not close my eyes to have Ishvara darshanam. Whatever I am seeing is Ishvara alone; When I see bangle, I am seeing gold; when I am seeing ring, I am seeing gold similarly whatever I am seeing is Ishvara darshanam.

Once I have this wisdom I don't have to close my eyes; every thing I see is God. This appreciation of God is called virat bhakti or vishva rupa bhakti.

And for such a vishva rupa bhaktha; a temple is not required for invoking devotion; an immature mind, an uninformed mind, a scripturally illiterate mind requires a temple to invoke devotion; but for a vishva rupa bhaktha, whatever he sees can invoke devotion. And in fact, he will become the greatest karma yogi because, whatever experience comes from any part of the world, is an experience given by the Lord alone, because there is no world other than God. And therefore Sri Krishna talked about or is still talking about the virat bhaktha from verse No.8 up to verse No.11.

Virat Bhakta:

How does he look at world? He sees world as manifestation of God; he sees every experience as coming from God. " I am source of every experience, sukham, dukham, labha alabha, jaya parajaya, mana apamana; all pairs of opposites, they are all coming from the Lord alone; with this awareness, they receive

every experience and therefore they have no question or resistance with regard to any experience.

This non-resistance to experiences is called prasada buddhi; and this nonresistance is the healthiest attitude because, whatever experience arrives is a choiceless situation. With regard to future I can try to change the experiences; but with regard to the present, I can never change the experiences because it has already arrived. Therefore past is choiceless; present is also choiceless; we have a choice only with regard to future. At this moment you are in this room; you have no choice; but next minute, whether you are going to continue to sit here or walk out is your choice; future, there is choice; past there is no choice; it has arrived and gone; present also no choice; because it has arrived.

These bhaktas are informed people who realize that whole creation is a manifestation of God. They may not know the Nirguna Ishwara but vishwa rupa they know.

They are soaked in devotion. They know all glories in universe belong to God. All extraordinary capabilities are the glory of God. Devotion and appreciation is there in their every experience. Citing story of an astronaut who saw the earth from the moon and wrote: "...and it came back loud and clear; there is no question in my mind that there is a creator of the universe; when you go to the moon, you have no other choice, than to believe in a creator; there is no other explanation".

On the moon you believe in a creator. Did all this distract me from my work? Not really, you still want to steal a look at the earth and everything around you; What he says is: To appreciate God you need not drop your duties and work; if only you have a sensitive mind; even when you see a small ant or when you read the book sometime there will be a very, very, small insect running inside the book; I do

not know whether you have seen that; it would of the size of

appreciated by only a mature mind’.

Citing story of wife of a scientist she was crying and told him don't you see my tears? He said I do see the Sodium Chloride with water coming down your eyes. He could not see the emotion behind her tears. Similarly God is discerned not physically analyzed and arrived at. And therefore **education is giving that mind which will discern the invisible God, behind the physical universe.**

Because of their view of the world, they enjoy all the time. Advantage of this is that in this appreciation there is fulfillment. In family front, there may be failures; and in professional front there may be failures; but as long this appreciation is there, you never look upon your life as a failure; this will make the life a success; even if there are failures in other fronts; and therefore there is fulfillment, that I am able to appreciate the Lord.

They revel in appreciation that they have a sensitive mind to appreciate.

Shloka # 10:

□□□□ □□□□□□□□ □□ □□□ □□□□□□□□□□ □□□□10.10□□

To them who are uninterruptedly united with Me and who lovingly adore Me, I grant that intellectual union by which they draw nigh to Me.

These bhaktas are ever connected to Me. Thus, a wave in ocean is related to ocean alone; it is born, it rests and it goes back into ocean alone; it is a fundamental relationship. Neighboring wave loves this wave. They marry and have family. But relationship between wave and another wave is incidental, while relationship between wave and ocean is fundamental. In life, other beings are like other waves. But my most sacred relationship is with god and it is forever.

A virat bhaktha is one who has understood that I am like a wave and Lord is like the ocean; and all the other human beings are like other waves only; So I while I may have several human relationships that are sacred but much more profound, much more sacred, much more fundamental; and much more universal is my relationship with the Lord. The human relationships can last for one lifetime. In the next life, same relationships may not exist. We don't even know if we will be born as a human being in next birth. So therefore even the most sacred human relationship can last for only one life. So much more sacred is my relationship with the Lord; It does not mean we have to discard or disregard human relationship; but what scriptures say is human relationship should never be at the cost of relationship with the Lord; therefore that relationship should be revived through regular prayers; I should pray; Oh Lord! Let me not forget my relationship with you in my preoccupation with the incidental relationships.

Virat bhakta has a Tampusra shruti playing all the time behind him. He will not go out of it. Thus, Ishwara sambandha is his background Sruti, hence called Satat Yukta; one who never forgets relationship with god. Devotion can't be forced; it has to be known only by knowledge. Love can only be born of understanding and in no other way. You discover love due to understanding. The more you study scriptures the more you understand and the more you love.

There are several levels of Bhakti. Initially I look upon God as a means for worldly ends; it is business love; love used as a means of give and take, the lowest form of Bhakti. This is usually associated with manda bhaktas.

The next one is learning to look upon God as an end in itself; because God represents purnatvam; and once I know that purnatvam, I understand that my goal of life is self-fulfillment; self-sufficiency; and this is called madhyama bhakthi; and that is the bhakthi that these people enjoy, so they look upon the God as the goal itself.

Virat Bhakta will become a Brahma Gyani without which no moksha is possible. If you surrender to Lord, he will provide the way to knowledge. He becomes a Gyani with support of God.

Shloka # 12:

शुद्धं चित्तं शुद्धं
शुद्धं चित्तं शुद्धं शुद्धं चित्तं शुद्धं शुद्धं
शुद्धं चित्तं शुद्धं शुद्धं चित्तं शुद्धं शुद्धं 10.12

Arjuna now spoke.

Sri Krishna has talked about Ishwara swarupam, vishwa rupa bhakti or Virat bhakti and benefit of this bhakti, which is Brahma Gyanam. This Gyanam will lead to Moksha. With this his teaching is over. But now Arjuna raises some questions. From Shlokas # 12-# 18, the questions are raised, all based on Sri Krishna's earlier comments in this chapter.

Sri Krishna said, "I am the cause of this universe. So, every glory is my glory. My glory manifests in every object." Arjuna wants to know more about this divine glory, also known as Vibhuti. Arjuna wants details of Vibhuti.

Therefore Arjuna says: Originally you are Param Brahma; not only that Param Dhama as well, and you are the supreme light of consciousness. So dhama has the meaning of light also; dhama means abode also; both meanings are OK. You are the abode of the whole universe or you are the light of consciousness, chaitanya

svarupah.

You are most sacred, Parama Pavitram. Anything becomes holy due to association with God. A building is not holy, but once an idol is installed God's holiness comes to building as well.

Even a saint is holy because of discovering Lord in himself. A fruit from a shop is just eaten while the same fruit from a puja, one places on both eyes due to its holiness that comes

Others think that the world is being created fore the purpose of God's enjoyment, while others still attribute it to a mere play of the Lord. But it is the very nature of the effulgent Being, the Atman; for what desire is possible for Him, whose desires are always in a state of perfect fulfillment?

Swamiji said Gaudapada concludes his analysis of first six mantras with Karika # 9. Here the first three padas were described as:

First Pada: is Sthula Atma in Jagrit avastha

Second Pada: is Sukshma atma in Swapna avastha

Third Pada: is Karana atma in Sushupti avastha.

Each of them is nothing but conscious principle associated with nama and rupa. Sthula atma is associated with Sthula nama rupa; Sukshma atma is associated with Sukshma nama rupa and Karana atma is associated with Karana nama rupa.

Each is divided into knower and known principle. Sthula atma has sthula prapancha, Sukshma atma has Sukshma prapancha and Karana atma has Karana prapancha. Each atma is a mixture of knower and known pairs. The three pairs constitute the three padas. Now we enter the fourth pada, the Turiya atma. We will also now enter the mantra # 7. So from karika # 9 we are now entering mantra # 7.

Mantra # 7:

This mantra defines Turiya atma. Knowledge of Turiya can liberate a person from samsara. The knowledge of the three padas can't give us liberation. This mantra is the most significant mantra of Mandukya Upanishad as well as entire Upanishadic literature. As we dwell on mantra # 7 more and more, we will appreciate it better. Guadapada has written over 200 verses on this mantra. It is called Turiya lakshanam. The mantra itself does not mention the word Turiya; it uses the

word Chaturtham or the fourth pada.

With respect to Turiya atma there is a misconception. We will remove the misconception first then come to conception. First pada is associated with waking state. Second pada with dream state and third pada with sleep state of experiences.

The common feature among padas is the association with a state of experience. Therefore for the fourth pada also we assume it is associated with a fourth state of experience. So people have inserted a fourth state to connect with fourth pada. They have given it a name called Turiya pada as the fourth pada.

Once this misconception has come up the corollary is that Turiya pada is now available only in Turiya avastha. Therefore, they conclude, during Vedantic study we can never know Turiya pada as we are in jagrat avastha during the study. So confused people conclude that during Vedantic sravanam we can only learn about Prathama pada alone; they feel they should work for Turiya avastha or Samadhi; and there are many types of Samadhi as well. These words have however no connection to Vedanta. We have to drop this misconception right now.

Mandukya Upanishad does not talk of Turiya avastha. It talks of jagrat, swapna and sushupti avasthas via usage of words Jagrat sthana, Swapna sthana and Karana sthana. A Turiya sthana or a fourth state is, however, not mentioned at all.

Then what does Upanishad say? It says Turiya is different from first three padas of Vishwa, Taijasa and Pragya. It is in and through all the three padas. Therefore, since Turiya is through all three padas wherever Vishwa is available Turiya is also available; it is same with Taijasa and Pragya as well. So, it obtains in all three avasthas. Turiya coexists with all three states. Each state may come and go but Turiya remains. Thus Turiya never comes and goes in any state; it is available in all states of experience.

To understand that Turiya is different from all three states, we can take example of golden bangle, chain and ring. Gold is not different from bangle, chain and ring. It is identical to all of them. Bangle is not equated to gold; as bangle comes and goes; but gold does not come and go. So it is with chain and ring as well.

So gold is different from bangle, chain and ring; but don't search for it outside; it is in and through all three of them. **How then to comprehend the gold; we see it by seeing the gold as a part of all three. The intellect filters out the name and form of chain, bangle and ring and we see only gold.**

Here we see gold is coexisting in chain, bangle and ring. So here gold is the fourth entity. It really is not away from the three; it is in and through all three although different from them.

Similarly, Turiyam is different from Waker but is in and through Waker. Turiyam is different from dreamer but in and through dreamer; Turiyam is different from sleeper but in and through sleeper as well.

When I say I am the waker, sleeper, and dreamer, what is it that is in and through all three states? The common factor is " I am", the shudha chaitanyam; all others are incidental states such as, "I am father; I am happy", etc. Here the "I am", is Turiyam. It is there even after waker goes away. It is there even after dreamer goes away; it is there even after sleeper goes away. The "er" in dreamer, sleeper and waker is the common principle; Waking, dreaming, sleeping are not. This is thrust of mantra.

For all three padas; each pada has a pair; a Pramatha (knower) and Prameya (known). Turiya is different from the three pramathas of Jagrit, sushupti and swapna; the three knowers, that is the waker, dreamer and sleeper. Similarly there is a Prameyam. Turiyam is different from the three pramathas and

the three prameyas, the three states of Sthula prapancha, svapna prapancha and karana prapancha. It is different from all three states but it is also in and through all three states.

Thus, seventh mantra can be divided into three parts:

First part: is Turiyam and it is different from the three knowers. In shloka it is described from “naanta to Na prgyam”.

Second part: Turiyam is different from three prameyas. In shloka it is described from “adrishtam to avyaya”.

Third part: Even though Turiya is different, it is in and through all three states. It is the adishtanam. In shloka it is described from “Eka atma to end”.

Thus, Turiyam is both transcendental and immanent. Transcendental here alludes to the gold that is different from bangle, chain and ring. Immanent alludes to the fact that It is in and through all three states.

“ I am that Turiyam”, one who knows this, he is free here and now. So all our struggles are to reach this state.

Describing the meaning of words in mantra swamiji said:

Bahishpragyam: means the Waker, the jagrat pramatha, the knower in waking state, turned extrovert. Turiyam is not bahishpragyam, not the waker I, not the prathama pada.

Nanta Pragyam was in mantra #4 as well. It means dreamer I turned inwards. Turiyam is not nantapragya, the dreamer I; nor Pragyandhanam, nor sleeper I, nor svapna Pramatha; the knower I in sleep state. Turiyam is none of them.

Na Ubhayataha Pragyam means intermediary experiencer. Intermediary state is one before you go to sleep; you are sleepy but are also awake; not total sleeper nor total waker; or upon waking, in morning you are still sleepy. It is at this

time that you get ESP experience, paranormal state of experience. Turiyam is different from these intermediary states as well.

Na Pragya, means the all knower or God. Turiyam is not even the Knower of all. The only thing that does not meet all these conditions can only be an inert stone. But Upanishad says it is not an inert principle; It is consciousness without being a Knower.

Thus all Pramatas are negated. With this part 1 is over.

Prameya Trayam: It is not an object of experience. It is Aprameyam. To reveal this Upanishad says it is not an object of any instrument of knowledge. Sarva Pramaha agochara. Pramanam means instrument of knowledge. It is not an eye, or sense organ or adrishtam, pancha indriya agocharam or Pratyaksha Pramana agocharam (not accessible).

If someone says I saw Brahman he has experienced some experience; but Vedanta says that experience is not the ultimate reality. If you saw, if you heard, it is not true.

Agraahyam: It cant be grasped by pancha karmendriyas; touch, smell, see...); if it is, it cant be ultimate truth. Any bhagavat darshanam of any bhakta we don't question it but Vedanta says it is not the ultimate.

Alakshanam: Lakshanam means inferring through clue. Smoke without seeing fire. Smoke is Lakshanam. Turiyam is Alakshanam; it can't be known from clues.

Baghawat Geeta, Class 130: Chapter 10, Verses 4 to 10

Shloka 4 and 5:

ॐ ज्ञानं विद्यां च धैर्यं शान्तिं च तपः

Intelligence, knowledge, non-delusion, endurance, truthfulness, sense control, mind control, pleasure, pain, being, non-being, fear and fearlessness.

ॐ अहिंसां क्षमां च संतुष्टिं च शान्तिं च
सर्वं कर्म तस्यै कर्मणोः प्रथमं ॥१०.५॥

Non-violence, equanimity, contentment, penance, charity, renown, ill-fame—from Me alone these manifold states accrue to all beings.

Swamiji said we have entered chapter # 10 with the first three shlokas. Sri Krishna is introducing subject of Ishwara swarupam or nature of god. This is topic from Ch. # 7 onwards. First six chapters were about Jiva Swarupam. From Ch. # 7 onwards it is Ishwara swarupam that continues till Ch. # 10. In first three shlokas Sri Krishna talked about glory of Ishwara Swarupam. In shlokas 4 and 5 he has entered into topic of nature of God. God is defined as cause of the universe or jagat karanam.

And this jagat karanam status of the Lord itself is explained in the scriptures in three different ways, depending upon the intellectual level of the student. Jagat karanam explanation

level No.1; jagat karanam explanation level No.2; jagat karanam explanation level No.3; This explanation will depend upon the intellectual caliber of the listener.

Level # 1:

Nimitha Karana Ishwara

God is creator of universe. He is omniscient, omnipotent creator who creates the creation. Here we imagine a creator like a jewel smith or a mason, an intelligent creator, as a person. Scriptures give many examples to support this; thus the four heads of god indicate a lot of knowledge and omniscience. This is an initial introduction to creator.

Level 2:

Parinami upadana karana Ishwara

If god is creator what raw material did he use? A carpenter needs wood; a mason needs cement etc. Here scriptures say god alone was there in the beginning. There was no " outside material" for him to use. As Creator, God finds raw materials in himself. So Lord himself evolves into universe. It is just like a seed evolves into a tree or as gold manifests itself as a chain. Now we say God himself evolves into universe or Lord manifests himself as Samsara. This is second level for the slightly advanced intellect. After being in madhyama budhi for some time he then evolves to level three.

Level Three:

Vivārtha upadana karana ishvara

Since Lord is infinite and beyond time and space, there is no question of the Lord becoming the Universe. Because the language of becoming indicates transformation and transformation indicates limitation by time, since God is desha kala atithah, there is no possibility of Lord transforming into the universe; then what happens; Lord

remaining changeless; the Lord appears as the universe: without really undergoing transformation, retaining his absolute nature, the Lord appears as this world, Just as we, at the time of dreaming, continue to remain as the waker on the bed, but in the dream, our mind gets transformed into the dream-time, the dream-space, the dream-object, the dream-transaction; the dream-nightmares, the dream-festivals; all are the waker himself who transforms without really undergoing any change.

So, I, the waker seemingly transform into dream and when I wake up the dream world gets resolved.

Just as I continue to remain as waker, and seemingly become pluralistic, transact, enjoy or suffer the dream, and when I wake up what happens, the whole dream world is resolved. And again I can project another dream world and again I can resolve. Even if hundreds of dreams I project and resolve, I continue to remain an undisturbed, untransformed and undestroyed individual,

So also God appears as world or Vivarta Upadana karanam Ishwara. Now in this chapter Sri Krishna is talking of a Level 2 Sadhaka. "I" evolve into universe; the internal universe of thoughts and external universe of objects both arise out of Me, says Sri Krishna. I alone become everything.

Shloka # 6:

सप्तर्षिणां ऋषीणां ऋषीणां ऋषीणां ऋषीणां ऋषीणां
सप्तर्षिणां ऋषीणां ऋषीणां ऋषीणां ऋषीणां ऋषीणां 10.6

The seven great seers, the first four, and also the Manus were mind-born, endowed with My powers. These beings are their progeny.

Creation of external world is being discussed.

First seven rishis, Sapta Rishis, came, and they belonged to

power is dormant as such it is invisible. Butter in milk is not visible but we have to churn it out. This is Ishwara Yoga. Once potential manifests or becomes visible it is called Vibhuti (potential is hidden kinetic energy activated). So, seed becomes tree. **Visible version of power is called Vibhuti; unmanifest is called Yoga.**

My lecture is in my mind, invisible. Now when I am talking, potential becomes word, manifests itself as Vibhuti for many. Thus, Shakaracarya's Bhashyam we read is Vibhuti. Universe we see is Vibhuti. At time of Pralaya everything is in potential form hence known as Yoga Nidra.

Thus, I have both potential and visible energy. Suppose a devotee knows this glory, for him god is not in Vaikunta rather for him god is everywhere. "God is nowhere", said the atheist. Someone changed it to. "God is now here". This is virat Ishwara darshanam; aneka rupa Darshanam. One who knows this goes to next level of Ishwara darshanam. Next level is, God appears to have this form.

So yogaha means arupa Ishvara Gyanam; he will go to nirguna Ishvara Gyanam; which is the third level; And not only he will get arupa Ishvara Gyanam; avikampena; and it will be a strong conviction for him; formless God is the real God; and that real formless God assumes either one form or many forms; depending upon the devotee's prayer; in whichever form, he wants to have darshanam; Bhagavan assumes that form; but really speaking; the Lord is arupa; And that arupa Ishvara is called avikampa; avikampa means what; unshaken knowledge; which means conviction.

He has all three rupams in him (arupa rupa, aneka rupa and eka rupa).

In Shivananadalahari, Shankara says I can meditate upon you as the Lord whose body consists of the moving and non-moving creation. I enjoy all the three; I can talk to you as a

hope for best but am prepared for the worst. This is the best medicine for stress.

Take away:

Visible version of power (Shakti) is called Vibhuti;
unmanifest (Shakti) is called Yoga.

I hope for best but am prepared for the worst. This is the best medicine for stress.

Baghawat Geeta, Chapter 10: Verses 1 to 5

Starting the chapter Swamiji said from Chapter # 7 Sri Krishna has been dealing with the nature of God. It is a progressive topic; chapters 7 through 12 all deal with nature of God. In preceding three chapters he described God as Jagat Karanam. He talked about nature of God consisting of Para Prakriti (PP), the higher nature and Apara prakriti (AP) the lower nature. We saw PP is Consciousness and AP is matter. Thus basic Matter principle with basic Consciousness principle is God. We saw their common features and uncommon features as well.

Common features: Consciousness is beginning less. Matter is also beginning less; consciousness therefore cannot be

created; matter also cannot be also created. **This uncreated-beginningless-consciousness-matter-unit or composite is called Ishvara.**

Uncommon features: Para prakrti or consciousness is not subject to change; it is changeless principle, whereas the matter principle is subject to change; is subject to evolution to become this universe, Matter is capable of evolving; and not only it is subject to evolution; after sometime it is subject to involution also;

Involution means folding back into again the fundamental form. Thus matter expands and contracts; it is subject to change; therefore apara prakrti, the matter is savikaram; the para prakrti, the consciousness is nirvikaram; Para prakrti the consciousness is nirgunam; free from all attributes or properties and therefore not available for any type of study; all scientific studies are based on attributes and properties; consciousness is free from all attributes; therefore it is not available for an instrument of experimentation; it is Nirgunam; whereas matter, the apara prakrti is full of attributes; therefore it is saguna satvam.

And then finally, we made one more point; which is not very much relevant here; but an aside note, that is consciousness is satyam; having independence; svatantram; whereas matter is mithya; it is para tantram, depending on consciousness. **Thus chetanam-achetanam; nirvikaram-savikaram; nirgunam-sagunam; satyam-mithya; such consciousness-matter mixture is called God.**

This mixture is called god. This is symbolically presented as father and mother principle. This god is jagat karanam. He is responsible for emergence of universe. And the understanding of karanam status is generally done in three stages, depending on the maturity of the student. For a beginner, God as the cause is Karanam is understood in three stages.

Stage one:

For level one student: God creates this world; like a carpenter creates furniture or gold smith creates n ornament. This is nimitha karanam god. Here student sees god as a person or human being. Student wants details, such as address etc., of god. He is present in Vykunta, say Scriptures. This creator is Vishnu who in turn created Brahmaji. Brahmaji then created the universe. This is God for a beginner; it is good for meditation as well.

Stage two:

Second level: Once mind matures, next stage of understanding is that God, the creator, is God himself manifesting. To create god has no material to use. He finds the material in himself. Like a spider, God finds material in his own body; after all He is Consciousness and matter. So God manifests as the world. Here Ishwara is Parinami Upadana Karanam. Now, I will never ask where is God as God himself is available as creator. Akasha, Vayu etc are all creations of God. Sunlight is manifestation of God, says Rudram. This darshanam of Sun is available to all people even without going to a temple, even for a dvijaha. His darshanam is always available. Cosmos is avatara of God; there is no queue to stand in to see him. This is Vishwa rupa Ishwara. Second stage is elaborated in chapters 7, 9, 10 and 11, god as vishwa rupam. If one stays in stage 2 long enough one eventually comes to stage 3.

Stage three:

In stage three, God does not become universe; here god apparently appears as the universe; meaning universe is unreal; connoting Brahma Satyam, jagan mithya. This is seen in chapter 13 on-wards. So, here, we are seeing God as Universe, the second stage. Once I see vishwarupa, divination of world happens to us. In the first stage God is elsewhere; He is sitting there; world is elsewhere; both are in different

Yamadharmaraja offers prayers to the Lord: Oh Lord; May I get more disciples like Nachiketas. Similarly Sri Krishna has got a wonderful disciple in Arjuna and therefore Sri Krishna says, Arjuna, I am inspired; therefore I am going to continue; may you once again listen to my supreme words; words dealing with God. I see you as a disciple with shradha. This knowledge will help you get liberation for your own benefit. The idea is Sri Krishna is not going to get any benefit out of it; because Krishna does not require any benefit. Remember third chapter where he says, I have nothing to accomplish in this universe; still out of compassion for you, I am going to teach you more.

Shloka # 2:

□ □□ □□□□□ □□□□□□ □ □□□□□□□
□□□□□□□□□ □□□□□□ □□□□□□□□□□10.2□□

The hosts of gods know not My origin; neither do great seers; for in all respects, I am the origin of gods and seers.

So these verses are introductory verses; wherein the subject matter is introduced from shloka #1 to # 3. So Ishvara svarupa Gyanam or Ishvara vibuthi Gyanam is the subject that is being introduced. And in this shloka, Sri Krishna points out to Arjuna: Do not tell me that you will learn the same topic from other gurus; as nobody else knows My glory in its entirety; I alone can know the glory in its full measure.

Nobody else can know, because all others were born later; and all others are finite in nature; and how can a finite mind ever know the glory of the infinite Lord.

Therefore Arjuna, you have to learn from only one source, only I know and therefore you have to learn from Me. So better continue to listen, as even Gods do not know my full glory. So There is a story in Kenopanishad that points out that story that even devathas cannot know the full nature of God. Even Rishis don't know my glory.

Giving the reason, Sri Krishna says I am their cause; I am their creator; they have come much later; and not only they have come later, they have got limited mind, limited intellect, limited instruments of knowledge.

Citing story of Brahmaji in the puranas, when Brahmaji appears from the navel, he sees darkness everywhere; He does not see a second thing; He does not know anything including his own nature; imagine suddenly you find yourselves surrounded by darkness; nothing is there; and Brahmaji got frightened; so he did tapas, as a result of tapas, He acquires knowledge given by Vishnu, the original creator; Brahmaji is ignorant initially; then Vishnu himself sends him all the knowledge; and therefore how can anybody talk about My glory; because they themselves do not know; so I am the karanam of everyone including Brahmaji; I am the karanam behind all the Rishis as well.

Shloka # 3:

ॐ ज्ञानं ज्ञानं ज्ञानं ज्ञानं ज्ञानं ज्ञानं ज्ञानं

Whoso knows Me as unborn and beginning less and as the great Lord of all the worlds is released from all sins; for he is undeluded among men.

And if a person is an intelligent one, he will certainly apply his mind to know the jagat karana Ishvara; it is only the inferior ordinary type of mind, which will be satisfied with knowing a few little things here; sufficient learning for earning food; that is why modern day education is based on a degree will fetch me a job in which I can work the least and get the most. So a developed intellect will certainly ask this question: Is there a cause; if a person is intelligent he will try to know jagat karana Ishwara. Developed intellect will ask where did all this come from? They are looking for a cause that addresses all this. Mature mind is called asammudha. What

is the cause of all this? That intelligent person knows Me as the birthless cause of the universe. Ajam anadim ca means birthless cause. Ultimate cause has to be causeless or beginningless. So, Sri Krishna says, I am birthless. Puranas show God as father and mother. Parvati does not have a father in law or mother in law, as Shiva is causeless. Sri Krishna says, " I am controller of whole universe" as srishti, sthiti, and laya karananam. This intelligent person who knows Me becomes free of papas and is liberated. This is Ishwara as seen in level 2. This person will go to third level and get liberated.

Shloka 4 and 5:

अहिंसा क्षमा संतोषो धर्मो ज्ञानं तदात्मनो 10.5

Non-violence, equanimity, contentment, penance, charity, renown, ill-fame—from Me alone these manifold states accrue to all beings.

Introductory part of chapter is over with shloka # 3. Subject is Ishwara swarupam. Now Sri Krishna presents the subject matter in shlokas 4 through 11, briefly. Then Arjuna asks for an elaboration.

God has manifested as universe. God and universe are both a mixture of consciousness and matter. For the sake of convenience, the world is divided into two; one is the external world of objects; and the internal world of thoughts; anthara prapancha; And Sri Krishna says internal world is also born out of Me alone, the external world is also born out of

Me alone; which means to see God, you need not look at a special direction. Whether you open the eyes, or close the eyes, God is everywhere.

First the anthara prapancha is enumerated; We have got any number of thoughts. Sri Krishna gives a list of such internal thoughts:

Buddhihi is intelligence;

Gyanam is knowledge;

Asammohah means clarity of thinking; not delusion; Sammohah means delusion;

Kshama means patience,

Satyam means truthfulness,

Dama means sense control. Even though sense control is the property of the sense organs, but to control the sense organs the message should be given by the mind alone; because we have seen in Kathopanishad, sense organs are like the horses, mind is like the reins; and therefore if the sense organs are under control; it is because of the mind's controlling power; That is called here dama; directing power of the mind;

Sama means mind control;

Sukham means happiness;

Dukham means unhappiness,

Bhava means birth, origin of these thoughts or emotions and

Abhava; means dissolution or resolution of these thoughts,

Bhayam means fear,

Abhayam means fearlessness.

Ahimsa means non-violence;

Samata means equanimity poise, tranquility, any word,

Tushti means contentment;

Tapa means austerity, discipline or austerity,

Danam means generosity, a charitable disposition; a generous disposition;

Yashah means fame; in thought;

Ayashah means ill-fame.

This is not an exhaustive list; Sri Krishna has just given a list; we can add more.

Bhutanam bhavah; these are all various inner conditions or dispositions of the living beings; so bhutanam means the living beings.

And all these conditions originate from Me.

They all are born out of Me alone; in their own distinct nature; they are all born out of Me alone; therefore I

am the cause of the inner world of thoughts and later he will point out I am the cause of the outer world also; combining them together I am the cause of everything; and therefore I am everything;

Take away:

This uncreated-beginningless-consciousness-matter-unit or composite is called Ishvara.

Thus, chetanam-achetanam; nirvikaram-savikaram; nirgunam-sagunam; satyam-mithya; such consciousness-matter mixture is called God.

When I see glory in another person I see glory of God in it.

into subject and object. Thus, in svapna avastha, I create the tiger, I perceive the tiger, and I am the perceived tiger as well. I alone exist. A Gyani is not affected by anything he experiences.

Bhujanah in karika means he is not affected by the experiences. He is not affected because he knows that I am conscious principle who is not tainted by the illumined object. It is like a light that is not polluted by the object it illuminates.

Na lipyate in shloka means he is an Asanga Rupa or one not affected.

Karika # 6:

प्रकृतं प्रकृतं प्रकृतं प्रकृतं प्रकृतं
प्रकृतं प्रकृतं प्रकृतं प्रकृतं प्रकृतं प्रकृतं

It is well established that something can come out as an effect only from a cause that is existent (not non-existent). The Prana manifests in all insentient things; the Pursusha creates separately the conscious beings, the egos, in their manifold forms.

In following four karikas, that is from karika # 6 to #9, Gudapada is giving us the significance of mantra # 6. It is a very important mantra. Mantra # 7 is an even more important mantra. Mantra # 6 is discussed later, again, in greater detail.

In this shloka, Gaudapada mentions a topic of creation briefly; it will be elaborated upon later as well. Creation or cosmology is a big topic in philosophy and science. In every philosophy creation is very important topic. In modern science it is called cosmology, which has many theories such as big-bang theory, steady state theory, etc. But none of them explain creation with clarity; it is all still a mystery.

Here, Gaudapada is talking about Vedantic theory of Creation. Gaudapada is hinting at the topic taken from the sixth mantra of Mandukya Upanishad. In that mantra, the third quarter was talked about, which is atma associated with the causal body and the causal universe. In sleep, everything is in resolved condition. During sleep, even though we are experiencing blankness, sleep is not blankness. Mandukya Upanishad says that everything is in potential condition in sleep. From that potential condition alone our experience in dream and waking states arises. Therefore, we are making **an important conclusion that if you have to create anything, that product must exist in potential form. This is an important Vedantic principle. If out of a lump of clay, you are able to create a variety of earthenware, all those forms have to be in the clay in potential form.** Thus creation always exists, which means that there is no creation of anything new. So there is no creation at all! **What is called creation is a big misnomer because matter cannot be created nor destroyed.** What is in unmanifest form coming into manifestation is wrongly called creation. When butter is made from milk, it is only the unmanifest butter in milk that comes out. Otherwise if butter can be newly created, it can be done so from anything. Butter cannot be created from water because water does not contain butter in potential form. Butter comes out of milk because it is in milk in potential form. Similar analogy of oil hidden in seed was given. This is a very important Vedantic doctrine. It says that you never create anything new; you only convert unmanifest into manifest. Any law true to humans also applies to God as well. God also can't create matter. So, where is question of Creation? Consciousness is eternal. It can't be created. Matter can't be created. Nothing is created.

In the third quarter, which is the deep sleep of the individual is called laya while the deep sleep state of the total cosmos called pralaya, where everything is in potential condition. All the five elements are also in potential condition. That potential form of the material creation is

called maya, prakrti, avyaktam etc.

Maya will be used here. During laya and pralaya, the whole universe is in maya in seed form along with consciousness called Turiyam, Brahman or atma. Thus Atma plus maya is equal to the third quarter, the Prajna-Ishvara, in which, everything is in seed form. Every state of sleep is followed by a waking-up. When you wake up in the current body, it is called waking up. If you wake up in some other body it is called rebirth. Manifestation always follows every dissolution. At the time of manifestation, everything dormant rises back. What happens to consciousness? Consciousness does not and cannot do anything. It cannot undergo any change. When the body-mind complexes are manifested, consciousness lends reflected consciousness to the body-mind complex. Thus, as many minds there are, as many reflected consciousness's will form. Gaudapada says that objects, that exist in potential form in the Prajna-Ishvara, referred to in the sixth mantra, become the manifest world. Un-manifest world is not useable as such it is as good as nonexistent.

Why do we use the word Creation wrongly? When a thing is in potential form, it is utterly useless with no utility value. Oil in seed can't be used; hence it is as good as nonexistent. In Pralaya, creation has no utility value; after manifesting, it is useful. So manifestation is considered newly created, which it is not. Thus from Avyakta avastha (unmanifest) comes Vyakta avastha (manifests). This is figuratively called Creation. Sri Krishna says in the Gita, "I never created you, Arjuna! You were always there." This Ishwara creates all Jivas as well as both chetana and achetana beings. Creation means Sthula, sukshma etc were in potential form; now they manifest as bodies and minds. RM (reflected matter) and RC (reflected consciousness) are also generated. Chetan, Achetan prapancha are thrown out or manifested. How is this possible? It is just like our dream creation. Sleeper throws out dream world with chetana and achetana beings. In

the shloka Prana means Ishwara.

Karika # 7:

Creation is the projection of the glory of God's own superhuman power, while others consider the world to be of the same nature as dream or illusion.

Some creationists believe it to be the projection of the glory of God's own superhuman power, while others consider the world to be of the same nature as dream or illusion.

In previous shloka how the potential creation is manifested by Ishwara was discussed.

Next topic is "nature of manifestation". Is it real or unreal? Later, Gaudapada will say manifested creation is Mithya; like dream creation is also not real; my thought appears as dream objects or mithya. But people consider this as real creation. Some theories of Creation include:

1. Creation is glory of God, as such it is as real as God. This is known as Vibhuti Mahima.
2. Creation is comparable to swapna or Maya. It is materialized by a magician and is called Maya. Materializing power is called Maya. Thus, Ishwara creates by his Maya.
3. World is like a dream where dream is a real one. So God creates this real dream, this universe.

Karika # 8:

The creationists attribute this manifestation to be caused by the mere will of God, while there are others who, looking upon time as real, declare that time is the cause for the manifestation of all things.

The creationists attribute this manifestation to be caused by the mere will of God, while there are others who, looking upon time as real, declare that time is the cause for the manifestation of all things.

Item # 4: Some others say that creation is sankalpa of God; by

his sheer will he creates; it is as real as God himself.

5: Don't blame God's will. It has nothing to do with God. It is time (kala) alone that creates Creation. Creation emerges due to Kala, say time specialists.

Karika # 9:

Others think that the world is being created fore the purpose of God's enjoyment, while others still attribute it to a mere play of the Lord. But it is the very nature of the effulgent Being, the Atman; for what desire is possible for Him, whose desires are always in a state of perfect fulfillment?

Point # 6: Others say creation is for enjoyment of God. It has the issue that god's enjoyment comes in part from human suffering. This is a dilemma.

Point # 7: Others say it is God's Leela or for fun.

Gaudapada says all these theories of Creation have problems, if you describe God as ever fulfilled. If God is full, why should he get happiness from Creation? He says all these theories are meaningless. Then, why did he create?

Gaudapada says, **God has not created the world. It has always been there as an intrinsic part of God.** If creation is not a

fresh arrival but has been a part of God in a potential form and later manifests, then do all sufferings also belong to God? Since whole creation is inseparable from God, he will also have all its sufferings?

Answering this Gaudapada says, **Creation is a lower order of reality, even as the shadow cannot affect a person, similarly creation can't affect God. Mithya world does not affect God.**

Take Away:

1. An important Vedantic principle is that if you have to create anything, that product must exist in potential form.
2. What is called creation is a big misnomer because matter cannot be created nor destroyed. What is in unmanifest form coming into manifestation is wrongly called creation.
3. God has not created the world. It has always been there as an intrinsic part of God.
4. Creation is a lower order of reality, even as the shadow cannot affect a person, similarly creation can't affect God. Mithya world does not affect God.
